Policing Digital Crime Robin Bryant,2016-04-22 By its very nature digital crime may present a number of specific detection and investigative challenges The use of steganography to hide child abuse images for example can pose the kind of technical and legislative problems inconceivable just two decades ago The volatile nature of much digital evidence can also pose problems particularly in terms of the actions of the first officer on the scene There are also concerns over the depth of understanding that generic police investigators may have concerning the possible value or even existence of digitally based evidence Furthermore although it is perhaps a cliché to claim that digital crime and cybercrime in particular respects no national boundaries it is certainly the case that a significant proportion of investigations are likely to involve multinational cooperation with all the complexities that follow from this This groundbreaking volume offers a theoretical perspective on the policing of digital crime in the western world Using numerous case study examples to illustrate the theoretical material introduced this volume examine the organisational context for policing digital crime as well as crime prevention and detection This work is a must read for all academics police practitioners and investigators working in the field of digital crime

The State and Illegality in Indonesia E. Aspinall,G. van Klinken,2011-01-01 The popular 1998 reformasi movement that brought down President Suharto's regime demanded an end to illegal practices by state officials from human rights abuse to nepotistic investments Yet today such practices have proven more resistant to reform than people had hoped Many have said corruption in Indonesia is entrenched We argue it is precisely this entrenched character that requires attention What is state illegality entrenched in and how does it become entrenched This involves studying actual cases Our observations led us to rethink fundamental ideas about the nature of the state in Indonesia especially regarding its socially embedded character We conclude that illegal practices by state officials are not just aberrations to the state they are the state Almost invariably illegality occurs as part of collective patterned organized and collaborative acts linked to the competition for political power and access to state resources While obviously excluding many without connections corrupt behaviour also plays integrative and stabilizing functions Especially at the lower end of the social ladder it gets a lot of things done and is often considered legitimate This book may be read as a defence of area studies approaches Without the insights that grew from applying our area studies skills we would still be constrained by highly stylised notions of the state which

bear little resemblance to the state's actual workings. The struggle against corruption is a long term political process. Instead of trying to depoliticize it, we believe the key to progress is greater popular participation. With contributions from Simon Butt, Robert Cribb, Howard Dick, Michele Ford, Jun Honna, Tim Lindsey, Lenore Lyons, John McCarthy, Ross McLeod, Marcus Mietzner, Jeremy Mulholland, Gerben Nooteboom, J. Danang Widoyoko, and Ian Wilson. This book is the result of a series of workshops supported among others by the Australian Netherlands Research Collaboration (ANRC).

Police Misconduct, Complaints, and Public Regulation John Beggs, Hugh Davies, 2009-07-09. *Police Misconduct: Complaints and Public Regulation* covers the highly sensitive topic of who polices the police. It provides comprehensive coverage of the law and procedure relating to the regulation of the police, setting out comprehensive guidance on practice at complaints and misconduct hearings, as well as detailed analysis of the powers of the IPCC and of its statutory guidance. It includes dedicated chapters on related sets of proceedings, notably the complaints and discipline process from recording the complaint through to the Police Appeals Tribunal, specific criminal offences, misconduct in public office, manslaughter, inquest proceedings, public inquiries, and judicial review. The content reflects the substantial developments in the law and practice in these inter-related proceedings since the implementation of the Police Reform Act 2002 in April 2004, as well as the radical reforms introduced by the Police Conduct Regulations 2008. The authors bring together in a detailed and practical narrative the relevant statutory powers, secondary legislation, statutory guidance, and increasing body of High Court jurisprudence. They include user-friendly diagrams and process maps to illustrate and explain the narrative and legislation. Appendices include regulations and associated Home Office Guidance under the 2004 and 2008 performance and misconduct regimes, and the new 2008 PAT Rules. Written by two barristers with extensive experience representing and advising police forces and officers, this book is an essential text for solicitors and barristers involved in police misconduct issues.
