Neuroteach Glenn Whitman,Ian Kelleher,2016-06-20 Teachers are brain changers Thus it would seem obvious that an understanding of the brain the organ of learning would be critical to a teacher s readiness to work with students Unfortunately in traditional public public charter private parochial and home schools across the country most teachers lack an understanding of how the brain receives filters consolidates and applies learning for both the short and long term Neuroteach was therefore written to help solve the problem teachers and school leaders have in knowing how to bring the growing body of educational neuroscience research into the design of their schools classrooms and work with each individual student It is our hope that Neuroteach will help ensure that one day every student regardless of zip code or school type will learn and develop with the guidance of a teacher who knows the research behind how his or her brain works and learns
