

MATHEMATICS GR 10
NOVEMBER EXAMINATION
PAPER 1

Date: 13/11/2013

Session: 1

Marks: 100

Time: 2 Hours

Name of Candidate: _____

Name of Maths Teacher: _____

For examiner's use only

	SECTION A								SECTION B				
QUESTION	1	2	3	4	5	6	7	8	9	10	11	12	Total
Level Of Cognitive Demand	1/2	1/2	1/2	1/2	1/2	1/2	1/2	1/2	3/4	3/4	3/4	3/4	
ACTUAL MARK													
POSSIBLE MARK	2	5	9	12	6	4	13	6	8	5	23	7	100
Marker's Signature													

INSTRUCTIONS TO CANDIDATES

1. This paper consists of 7 pages.
2. This paper is answered on lined paper. Please answer on the diagram sheet in appropriate questions.
3. Show all relevant steps in calculations. Providing answers only will not earn any of the method marks. Round off to 2 decimals places where applicable.
4. Calculators may be used, unless otherwise stated.

Good Luck

Geography Paper 1 November 2013 Ieb

Gilberto Antonelli, Giuseppe Cappiello

Geography Paper 1 November 2013 Ieb:

Devolution and the UK Economy David Bailey, Leslie Budd, 2016-02-24 The Scottish Referendum in September 2014 had significant and far reaching consequences for the political settlement of the United Kingdom The pressure for more fiscal devolution and other economic powers in the devolved nations has increased demands for greater economic decentralisation in the regions and sub regions of England This edited collection constructs an analytical narrative that draws on the evidence of the Scottish experience and expert testimony from the Smith Commission and other policy advisors Drawing on ideas from fiscal federalism and agglomeration economics the contributors examine the reorganisation and restructuring of economic territories within the UK What is apparent in the UK experience of asymmetrical devolution is that many of the complex issues surrounding decentralised economic governance are not going to be addressed through simple expedients The pertinent question is what should be the appropriate institutional logics and formal policy bailiwicks underpinning a new constitutional settlement In other words what new governmental powers and accompanying forms of governance are needed to achieve a more economically and spatially balanced economy

Smart Development in Smart Communities

Gilberto Antonelli, Giuseppe Cappiello, 2016-09-13 The concept of smart cities has become one of the most significant new lines of thinking to emerge in the social sciences in recent years both from the research and policy angles To date the focus in smart specialization has been on what regions as a whole can do to bring about innovation but it hasn't necessarily addressed the role cities play within the field This book aims to address that gap drawing together a team of leading contributors to illustrate this process with particular focus on cities Smart Development in Smart Communities discusses the cross fertilization between smart specialization and cities in fostering smart development and its interactions with the macro micro and meso economic framework from both a theoretical and applied perspective Specific topics covered by the book include human capital formation and utilization centralized decentralized industrial policies innovation policies collective learning and the role of public utilities in sustaining smart development processes This book tackles some of the most important questions that must be faced when investigating how structural change and innovation processes are shaping local and global economic development It will be of interest to academics and researchers in the area of Development Economics Urban Studies and Public Management
