Kolvezon,1977 **Trick Geography: World--Teacher Guide** Patty Blackmer,2016-07-15 I can t believe how much I just learned That was one mom s response after observing a single class session of Trick Geography Trick Geography World Teacher Guide Student Book sold separately is a simple yet powerful geography curriculum which routinely moves students from geographic illiteracy to command of world countries capitals and major world bodies of water mountains peninsulas and deserts in less than a year And all with ease and high retention Delightful graphics phonetic connectors dot to dots and fill in the blanks facilitate multiple learning styles and make the process more like a game than a curriculum It is easy enough for elementary students yet sophisticated enough for the high schooler Teachers appreciate the simple instructions which require virtually no prep time or learning curve and which give students the option of going through the program on their own Evaluation is a cinch with matching tests which are included Recommended for ages 8 to adult 138 pages The Trick Geography USA edition is also available *Geography and History, 2 Secondary, Revuela* ,2024 Exploring Geography , Elementary Geography Charlotte Mason,2017-09-18 This little book is confined to very simple reading lessons upon the Form and Motions of the Earth the Points of the Compass the Meaning of a Map Definitions The shape and motions of the earth are fundamental ideas however difficult to grasp Geography should be learned chiefly from maps and the child should begin the study by learning the meaning of map and how to use it These subjects are well fitted to form an attractive introduction to the study of Geography some of them should awaken the delightful interest which attaches in a child s mind to that which is wonderful incomprehensible The Map lessons should lead to mechanical efforts equally delightful It is only when presented to the child for the first time in the form of stale knowledge and foregone conclusions that the facts taught in these lessons appear dry and repulsive to him An effort is made in the following pages to treat the subject with the sort of sympathetic interest and freshness which attracts children to a new study A short summary of the chief points in each reading lesson is given in the form of questions and answers Easy verses illustrative of the various subjects are introduced in order that the children may connect pleasant poetic fancies with the phenomena upon which Geography so much depends It is hoped that these reading lessons may afford intelligent teaching even in the hands of a young teacher The first ideas of Geography the lessons on Place which should make the child

observant of local geography of the features of his own neighbourhood its heights and hollows and level lands its streams and ponds should be conveyed viva voce At this stage a class book cannot take the place of an intelligent teacher Children should go through the book twice and should after the second reading be able to answer any of the questions from memory
