**Selling Hope and College** Alex Posecznick,2017-04-25 It has long been assumed that college admission should be a simple matter of sorting students according to merit with the best heading off to the Ivy League and highly ranked liberal arts colleges and the rest falling naturally into their rightful places Admission to selective institutions where extremely fine distinctions are made is characterized by heated public debates about whether standardized exams high school transcripts essays recommendation letters or interviews best indicate which prospective students are worthy And then there is college for everyone else But what goes into less selective college admissions in an era when everyone feels compelled to go regardless of preparation or life goals Ravenwood College where Alex Posecznick spent a year doing ethnographic research was a small private nonprofit institution dedicated to social justice and serving traditionally underprepared students from underrepresented minority groups To survive in the higher education marketplace the college had to operate like a business

and negotiate complex categories of merit while painting a hopeful picture of the future for its applicants Selling Hope and College is a snapshot of a particular type of institution as it goes about the business of producing itself and justifying its place in the market Admissions staff members were burdened by low enrollments and worked tirelessly to fill empty seats even as they held on to the institution's special spirit Posecznick documents what it takes to keep a mediocre institution open and running and the struggles tensions and battles that members of the community tangle with daily as they carefully walk the line between empowering marginalized students and exploiting them *An Age of Accountability* John L. Rury, 2023-10-13

*An Age of Accountability* highlights the role of test based accountability as a policy framework in American education from 1970 to 2020 For more than half a century the quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment The theory of change embedded in almost all test based accountability programs held that assessment with stipulated consequences could lead to major improvements in schools This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps which repeatedly failed to materialize But even after very clear disappointments no other policy framework has emerged to challenge its hegemony The American public today has little confidence in institutions to improve the quality of goods and services they provide especially in the public sector As a consequence many Americans continue to believe that accountability remains a vital necessity even if educators and policy scholars disagree *The College Handbook*, 1987 *U S NEWS ULTIMATE COLLEGE DIRECTORY 2004* MCGRATH ANNE (EDITOR), 2003 **Cumulative Author Index to Psychological Abstracts**, 1975 **The Times Index**, 2011 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Times educational supplement Scotland and the Times higher education supplement *U.
