Grade11 2014 November Memorandum:

The King Who Had To Go Adrian Phillips, 2016-10-13 The previously untold story of the hidden politics that went on behind the scenes during the handling of the Royal abdication crisis of 1936 *The King Who Had to Go* describes the harsh realities of how the machinery of government responds when even the King steps out of line It reveals the pitiless and insidious battles in Westminster and Whitehall that settled the fate of the King and Mrs Simpson Prime Minister Stanley Baldwin had to fight against ministers and civil servants who were determined to pressure the King into giving up Mrs Simpson and when that failed into abdicating Dubious police reports on Mrs Simpson's sex life poisoned the government's view of her and were used to blacken her reputation Threats to sabotage her divorce were deployed to edge the King towards abdication Covert intelligence operations convinced the hardliners that the badly coordinated and hopeless attempts of the King's allies particularly Winston Churchill to keep him on the throne amounted to a sinister anti constitutional conspiracy The book also shows how the King doomed his chances of keeping the throne by wildly unrealistic goals and ill thought out schemes As each side was overwhelmed by desperation and distrust Baldwin somehow held the balance and steered the crisis to as smooth a conclusion as possible

The Midshipman Culture and Educational Reform Todd A. Forney, 2004 The Midshipman Culture and Educational Reform examines the effect of educational and professional reforms on the culture of Annapolis from 1945-76 The Naval Academy has juggled the competing priorities of training and education throughout its history Proper balance was a perennial problem since the academy was limited to a four year timetable to graduation Bancroft Hall was the focal point for professional indoctrination and the heart and soul of the academy culture Its traditions and activities often competed with academics for the midshipmen's time and attention technology and operational requirements forced the school to reevaluate the emphasis paid to academics Outside groups such as the Folsom Board and Admiral Hyman Rickover also acted as a catalyst for reform The culmination of these efforts was the academic revolution of the 1960s which transformed Annapolis into an elite engineering college Midshipmen and their officers occasionally resisted changes that undercut their most cherished traditions including plebe indoctrination Ironically most core values of the academy culture remained similar to what they had always been including the emphasis on career service and loyalty to one's shipmates Fomey's book uses all original sources including a thorough survey of graduates from these years
