# Grade11 Economics P2 October November 2014

**Stephanie Hemelryk Donald, Emma  
Wilson, Sarah Wright**

## **Grade11 Economics P2 October November 2014:**

*The UK Regional-National Economic Problem* Philip McCann, 2016-03-10 In recent years the United Kingdom has become a more and more divided society with inequality between the regions as marked as it has ever been In a landmark analysis of the current state of Britain's regional development Philip McCann utilises current statistics examines historical trends and makes pertinent international comparisons to assess the state of the nation The UK Regional National Economic Problem brings attention to the highly centralised top down governance structure that the UK deploys and demonstrates that it is less than ideally placed to rectify these inequalities The North South divide in the UK has never been greater and the rising inequalities are evident in almost all aspects of the economy including productivity incomes employment status and wealth Whilst the traditional economic dominance of London and its hinterland has continued along with relative resilience in the South West of England and Scotland in contrast the Midlands the North of England Northern Ireland and Wales lag behind by most measures of prosperity This inequality is greatly limiting national economic performance and the fact that Britain has a below average standard of living by European and OECD terms has been ignored The UK's economic and governance inequality is unlikely to be fundamentally rebalanced by the current governance and connectivity trends although this definitive study suggests that some areas of improvement are possible if they are well implemented This pivotal analysis is essential reading for postgraduate students in economics and urban studies as well as researchers and policy makers in local and central government

**Childhood and Nation in Contemporary World Cinema** Stephanie Hemelryk Donald, Emma Wilson, Sarah Wright, 2017-02-09 The child has existed in cinema since the Lumière Brothers filmed their babies having messy meals in Lyons but it is only quite recently that scholars have paid serious attention to her his presence on screen Scholarly discussion is now of the highest quality and of interest to anyone concerned not only with the extent to which adult cultural conversations invoke the figure of the child but also to those interested in exploring how film cultures can shift questions of agency and experience in relation to subjectivity Childhood and Nation in World Cinema recognizes that the range of films and scholarship is now sufficiently extensive to invoke the world cinema mantra of pluri vocal and pluri central attention and interpretation At the same time the importance of the child in figuring ideas of nationhood is an undiminished tic in adult cultural and social consciousness Either the child on film provokes claims on the nation or the nation claims the child Given the waning star of national film studies and the widely held and serious concerns over the status of the nation as a meaningful cultural unit the point here is not to assume some extraordinary pre social geopolitical empathy of child and political entity Rather the present collection observes how and why and whether the cinematic child is indeed aligned to concepts of modern nationhood to concerns of the State and to geopolitical organizational themes and precepts

**The Economics and Law of Public Procurement** Annalisa Castelli, Gustavo Piga, Tünde Tátrai, 2024-12-11 Public procurement makes up a significant part of national economies 10-25% of gross domestic product GDP depending on the country

Appropriate laws and regulations are an essential tool to direct the action of procurers towards the public good and avoid corruption and misallocation of resources while at the same time sustaining progress and social goals. The original approach of this book combines juridical, economic and technical expertise to find common terrain and a common language in order to debate the specific issues that affect public administrations across the world that need advancing and modernizing. The book features contributions across four specific themes of interest to the procurer's day to day job in modern public purchasing organizations: preferences and political economy in public procurement, climate change, defence procurement and human rights in public procurement. The aim is to let the new emerging trade offs between competition and sustainability emerge, highlighting at the same time the possible synergies between the relevant policy objectives. The book takes into account sectoral specificities reinforced by recent global events such as wars, natural disasters and populism. The unique format features in each section an interdisciplinary debate between two experts across different disciplines who deliberate and engage one another so as to improve the mutual understanding across disciplines, followed by two additional contributions. This book will be of interest to scholars, researchers and policymakers worldwide.

**Rethinking International Skilled Migration** Micheline van Riemsdijk, Qingfang Wang, 2016-10-04. In today's global knowledge economy, competition for the best and brightest workers has intensified. Highly skilled workers are an asset to companies, knowledge institutions, cities and regions as they contribute to knowledge creation, innovation and economic growth and development. Skilled migrants cross and many times straddle international borders to pursue professional opportunities. These spatial relocations provide opportunities and challenges for migrants and the cities and regions they inhabit. How have international skilled migratory flows been formed, sustained and transformed over multiple spaces and scales? How have these processes affected cities and regions? And how have multiple stakeholders responded to these processes? The contributors to this book bring together perspectives from economic, social, urban and population geography in order to address these questions from a myriad of angles. Empirical case studies from different regions illuminate the multiscaled processes of international skilled migration. In particular, the contributions rethink skilled migration theories and provide insights into the experiences of highly skilled labor migrants and international students, issues related to transnational activities and return migration and policy implications for both immigrant source and destination countries. It also charts a future research agenda for international skilled migration research. **Rethinking International Skilled Migration** provides a comparative perspective on the experiences of skilled migrants across the local, regional, national and/or global scale, paying particular attention to spatial and place-based dimensions of international skilled migration. It will be of interest to scholars and professionals in international migration, regional and national development, policymakers, international businesses and NGOs.

**The Age of Increasing Inequality** Lars Osberg, 2018-09-11 Canada is in a new era For 35 years the country has become vastly wealthier but most people have not For the top 1% and even more for the top 0.1% the last 35 years have been a bonanza Canadians know very well that there's a huge problem It's expressed in resistance to tax increases concerns over unaffordable housing demands for higher minimum wages and pressure for action on the lack of good full time jobs for new graduates This book documents the dramatic and rapid growth in inequality It identifies the causes And it proposes meaningful steps to halt and reverse this dangerous trend Lars Osberg looks separately at the top middle and bottom of Canadian incomes He provides new data which will surprise even shock many readers He explains how trade deals have contributed to putting a lid on incomes for workers The gradual decline of unions in the private sector has also been a factor On the other end of the scale he explains the growing high salaries for corporate executives managers and some fortunate professionals Lars Osberg believes that increasing inequality is bad for the country and its unfairness is toxic to public life But there is nothing inevitable about this and he points to innovative measures that would produce a fairer distribution of wealth among all Canadians

*EFA Global Monitoring Report - 2013-2014 - Teaching and Learning Achieving quality for all* UNESCO, 2014-02-04 The 2013 2014 Education for All Global Monitoring Report shows that a lack of attention to education quality and a failure to reach the marginalized have contributed to a learning crisis that needs urgent attention Worldwide 250 million children many of them from disadvantaged backgrounds are not learning the basics Teaching and Learning Achieving Quality for All describes how policy makers can support and sustain a quality education system for all children regardless of background by providing the best teachers The Report also documents global progress in achieving Education for All goals and provides lessons for setting a new education agenda post 2015 In addition the Report identifies that insufficient financing is hindering advances in education

**The Public Company Transformed** Brian Cheffins, 2018-09-28 For decades the public company has played a dominant role in the American economy Since the middle of the 20th century the nature of the public company has changed considerably The transformation has been a fascinating

one marked by scandals political controversy wide swings in investor and public sentiment mismanagement entrepreneurial verve noisy corporate raiders and various other larger than life personalities Nevertheless amidst a voluminous literature on corporations a systematic historical analysis of the changes that have occurred is lacking *The Public Company Transformed* correspondingly analyzes how the public company has been recast from the mid 20th century through to the present day with particular emphasis on senior corporate executives and the constraints affecting the choices available to them The chronological point of departure is the managerial capitalism era which prevailed in large American corporations following World War II The book explores managerial capitalism's rise its 1950s and 1960s heyday and its fall in the 1970s and 1980s It describes the American public companies and executives that enjoyed prosperity during the 1990s and the reversal of fortunes in the 2000s precipitated by corporate scandals and the financial crisis of 2008 The book also considers the regulation of public companies in detail and discusses developments in shareholder activism company boards chief executives and concerns about oligopoly The volume concludes by offering conjectures on the future of the public corporation and suggests that predictions of the demise of the public company have been exaggerated

**Structural Racism** Stephen Menendian, 2025-06-30 This book explains how racial inequality in the United States is produced and perpetuated and what should be done about it It develops the elusive concept of structural racism presenting a precise definition that is clear and comprehensible and illustrates how it operates methodically and rigorously Many other books are long on problems and short on solutions whereas this book develops the key principles that must ground a structural reform agenda and then presents a broad ranging set of interventions organized around ten themes that will reduce racial disparities while expanding opportunity for all Unlike most books on race which focus on a particular issue or sector this book is comprehensive in its scope encompassing the vital systems that shape racial inequality in contemporary American society from education and public schools to income and wealth disparities to housing and health care to policing and the criminal justice system As such this book is the ideal text for readers seeking to learn more about structural racial inequality in society how it came to be that way and what we should do about it while deepening our understanding and challenging many misguided or simplistic prevailing notions In a time of backlash to racial justice and growing doubts about racial equity initiatives this book is a timely and necessary entry A must read for advocates students policymakers and researchers alike
