Spiritual Health John W. Fisher, 2010. As spirituality first appeared in Australian curriculum documents in 1994 it was important to establish how educators thought it related to student well being. In this research a description and four accounts of spirituality: spiritual rationalism, monism, dualism, and multidimensional unity were developed from available literature. The literature also revealed four sets of relationships important to spiritual well being. These were the relationships of a person with themselves, others, environment, and Transcendent Other. Care Managers: Working with the Aging Family Cathy Cress, 2009-10-07. Care Managers Working with the Aging Family addresses the unmet needs of care managers working with aging clients as well as the client's entire family. With its in-depth focus on the aging family system, this book fills a gap for medical case managers and geriatric care managers, giving them tools to better meet the treatment goals of aging clients and their families as the older clients move through the continuum of care in institutional-based settings or community-based settings.
