major fiscal and budgetary crisis impossibly expensive rentals for our most attractive cities worsening of residential segregation and a decline in our work ethic The only way to avoid this difficult future is for Americans to force themselves out of their comfortable slumber to embrace their restless tradition again      *September 2019 Monthly Current Affairs with MCQs for Competitive Exams* Disha Experts,2019-09-01      **October 2019 Monthly Current Affairs with MCQs for Competitive Exams** Disha Experts,2019-09-25      **August 2019 Monthly Current Affairs with MCQs for Competitive Exams** Disha Experts,2019-08-04      **Super 10 Mock Tests for IAS Prelims General Studies Paper 1 (CSAT) Exam - 4th Edition** Disha Experts,2020-01-01      *Policy-Making in the GCC* Neil Quilliam,Mark C. Thompson,2017-09-11 The GCC is a major player in the post 2011 reordering of the Middle East Despite the rise in prominence of individual Gulf states especially Kuwait Qatar Saudi Arabia and the United Arab Emirates and the growth of the GCC as a collective entity surprisingly little attention has been paid to the actual mechanics of policy making in the region This book analyses the vital role that institutions are coming to play in shaping policy in the Gulf Arab states The research coincides with two key developments that have given institutions new importance in the policy process the emergence of a new generation of leaders in the Gulf and the era of low oil prices Both developments along with dramatic demographic change have compelled state and citizens to re evaluate the nature of the social contract that binds them together Contributors assess the changing relationship between state and citizen and evaluate the role that formal and informal institutions play in mediating such change and informing policy The book shows how academic social and economic institutions are responding to the increasingly complex process of decision making where citizens demand better services and further empowerment and states are obliged to seek wider counsel although wanting to retain ultimate authority With contributions from both academics and practitioners this book will be highly relevant for researchers and policymakers alike      *The End of Public Schools* David W. Hursh,2015-10-16 The End of Public Schools analyzes the effect of foundations corporations and non governmental organizations on the rise of neoliberal principles in public education By first contextualizing the privatization of education within the context of a larger educational crisis and with particular emphasis on the Gates Foundation and influential state and national politicians it describes how specific policies that limit public control are advanced across all levels Informed by a thorough understanding of issues such as standardized testing teacher tenure and charter schools David Hursh provides a political and pedagogical critique of the current school reform movement as well details about the increasing resistance efforts on the part of parents teachers and the general public      **The Emergence of the Urban Entrepreneur** Boyd Cohen,Pablo Muñoz,2016-05-16 Combining emerging trends in collaboration democratization and urbanization this book examines the emergence of entrepreneurship and innovation as a primarily urban phenomenon explains why urban environments are rapidly attracting global innovators across three distinct forms of urbanpreneurship and lights the path forward for entrepreneurs innovators and city governments The world is urbanizing rapidly Currently 600 cities account for
