California Geology Manual Patti Sutch, Lisa Dirth, 2000. The California Specific Exam CSE was first given by the California Board for Professional Engineers, Land Surveyors and Geologists in the fall of 1999 to out of state registered geologists who needed only the supplemental exam to become licensed in California. Thereafter the exam was administered to all as part of the California Professional Geologist licensing process. The exam is given concurrently with the Geology exam ASBOG. See the FG PG Geology Study Manual Review for the National ASBOG Geology Licensing Exams Fundamentals of Geology Practice of Geology for information on the ASBOG exam. Both the ASBOG exam and the California Specific Exam must be passed to become a professional geologist in California. When the California Board for Professional Engineers, Land Surveyors and Geologists adopted the ASBOG exam, it was clear that some California related geologic and seismic issues were not covered by that exam. California is geologically diverse, containing 11 geomorphic provinces with differing histories.
