ECRM2014-Proceedings of the 13th European Conference on Research Methodology for Business and Management Studies Dr Martin Rich, Dr Anne Brown, 2014-06-16 *Survey of Current Business*, 1971 Confronting Corruption in Business Alan T. Belasen, Roxana Toma, 2015-12-07 Confronting Corruption in Business focuses on the contextual issues that trigger corruption to give the reader a more thorough understanding of destructive leadership. It provides students with a unique critical perspective on issues of leadership corruption and policy in different countries, industries, and companies. While there isn't a universally agreed upon definition of corruption in social sciences, it generally refers to efforts to secure wealth or power through misusing public power for private gain. This kind of destructive leadership is typically treated as an anomaly, but this book closes the gap in our understanding by highlighting the wider consequences of this behavior within business and on an international level. Armed with this understanding, one also learns how to mitigate its causes and consequences. Edited by leading experts, the book includes contributions from scholars with international expertise on leadership, strategy, political science, finance, organizational change, and public policy. It is the first book to focus on corruption on the country level and within business, and students in international business management, ethics, and leadership classes will find it a valuable read.

Minerals Yearbook, 2014 **Interpersonal Relationships** Martha Peaslee Levine, 2022-07-27 Relationships are a necessary part of life. This has always been true; community helped keep us safe as dangerous animals prowled outside our caves. We are now even more interconnected with each other. What do we know about interpersonal relationships? How do we develop the skills to connect with each other? Relationships can bring value and meaning to our lives, but sometimes they can have negative effects and impair our view of ourselves and others. We need to find ways to keep hope even if some relationships have scarred us. We need to recognize skills that we can use to form closer relationships in both our professional and personal lives. This book examines interpersonal relationships from many different angles. It will allow the reader to look at relationships in new ways and perhaps find tools to enhance and deepen connections within their lives.

Pedigree Lauren A. Rivera, 2016-03-22 How social class determines who lands the best jobs Americans are taught to believe that upward mobility is possible for anyone who is willing to work hard regardless of their social status yet it is often those from affluent backgrounds who land the best jobs Pedigree takes readers behind the closed doors of top tier investment banks consulting firms and law firms to reveal the truth about who really gets hired for the nation's highest paying entry level jobs who doesn't and why Drawing on scores of in depth interviews as well as firsthand observation of hiring practices at some of America's most prestigious firms Lauren Rivera shows how at every step of the hiring process the ways that employers define and evaluate merit are strongly skewed to favor job applicants from economically privileged backgrounds She reveals how decision makers draw from ideas about talent what it is what best signals it and who does and does not have it that are deeply rooted in social class Displaying the right stuff that elite employers are looking for entails considerable amounts of economic social and cultural resources on the part of the applicants and their parents Challenging our most cherished beliefs about college as a great equalizer and the job market as a level playing field Pedigree exposes the class biases built into American notions about the best and the brightest and shows how social status plays a significant role in determining who reaches the top of the economic ladder
