The Archaean Geology of the Kaapvaal Craton, Southern Africa Alfred Kröner, Axel Hofmann, 2019-02-20 This book provides a comprehensive overview of the evolution of one of the oldest and best exposed Archaean cratons on this planet. It offers a wealth of new data on various aspects of the craton as well as contributions on the various crustal units by international specialists. **Mining Journal, Railway & Commercial Gazette** ,1901 **Engineering Materials, Structures, Systems and Methods for a More Sustainable Future** Alphose Zingoni, 2025-08-20 *Engineering Materials Structures Systems and Methods for a More Sustainable Future* comprises 275 papers that were presented at SEMC 2025, the Ninth International Conference on Structural Engineering, Mechanics and Computation. This event held in Cape Town, South Africa from 1 to 3 September 2025 was attended by around 300 participants from 42 countries worldwide. The Proceedings are divided into 15 sections. The various topics may be grouped into five broad categories covering: i) the mechanics of materials, solids and structures; ii) numerical modelling, computational simulations and experimental testing; iii) analysis, design and construction in the traditional engineering materials; iv) innovative engineering materials, structures and methods; v) maintenance, long term performance, life cycle considerations and sustainable construction. *Engineering Materials Structures Systems and Methods for a More Sustainable Future* will be of interest to civil, structural, mechanical, marine and aerospace engineers as well as planners and architects. Two versions of the papers are available: full papers of length six pages are included in the e-book while short papers of length two pages intended to be concise but self-contained summaries of the full papers are in the printed book. *Special Papers* ,1934 **The Directory and Chronicle for China, Japan, Corea, Indo-China, Straits Settlements, Malay States, Siam, Netherlands India, Borneo, the Philippines, and Etc** ,1902 **West African Youth Challenges and Opportunity Pathways** Mora L. McLean, 2019-10-21 This open access edited collection focusing on Ghana and Nigeria offers a transatlantic, transnational exploration of barriers that threaten the wellbeing of West African youth, ranging from Black immigrant youth in the American city of Newark, New Jersey to students in Almajiri Islamic schools in Northern Nigeria. Incorporating themes of migration, vulnerability and agency and aspirations, the book conveys the resilience of African youth transitioning toward adulthood in a world of structural inequality. It thus crosses the academic divide between Youth Studies and African Studies while challenging conventional framings of Black youth as deficient and deviant, positing instead their individual and collective creativity and assets.
