Cinematic Hamlet Patrick J. Cook, 2011-08-03 Hamlet has inspired four outstanding film adaptations that continue to delight a wide and varied audience and to offer provocative new interpretations of Shakespeare's most popular play. Cinematic Hamlet contains the first scene by scene analysis of the methods used by Laurence Olivier, Franco Zeffirelli, Kenneth Branagh, and Michael Almereyda to translate Hamlet into highly distinctive and remarkably effective films. Applying recent developments in neuroscience and psychology, Patrick J. Cook argues that film is a medium deploying an abundance of devices whose task it is to direct attention away from the film's viewing processes and toward the object represented. Through careful analysis of each film's devices, he explores the ways in which four brilliant directors rework the play into a radically different medium, engaging the viewer through powerful instinctive drives and creating audiovisual vehicles that support and complement Shakespeare's words and story. Cinematic Hamlet will prove to be indispensable for anyone wishing to understand how these films rework Shakespeare into the powerful medium of film. Samuel Johnson on Shakespeare Edward Tomarken, 2009-01-01 Since the first appearance of Samuel Johnson's edition of Shakespeare's drama in 1765, its Preface has often been published separately while the Notes have been treated as miscellaneous and fragmentary. As a result, few modern readers realize that the Notes in fact contain coherent interpretations of most of the plays and that many portions of the Preface are generalizations related to those readings. Scholars who have examined the Notes carefully have almost always used them in studies of larger issues such as Johnson's morality or rhetoric. In this book, Edward Tomarken provides the first full-length study of the Notes to Shakespeare, showing how they raise issues of direct concern to modern critics and theoreticians. While referring to Johnson's notes on all the Shakespearean dramas, Tomarken focuses on eight plays: Henry IV, Troilus and Cressida, Twelfth Night, The Taming of the Shrew, King Lear, The Tempest, Hamlet, and Macbeth, to demonstrate the range of Johnson's editorial and critical abilities. Each chapter, devoted to a single play, moves from the particular to the general, from specific remarks about the play in the Notes to related theoretical statements in the Preface, and finally to an axiom of literary theory. Ranging from a formulation concerning ideology in criticism to a reconsideration of aesthetic empathy, these axioms are Tomarken contends essential to literary criticism as a discipline and manifest Johnson's relevance to modern criticism. The conception of criticism that emerges in this book goes well beyond the theoretical premises of the eighteenth century. Tomarken submits that the ethical dimension of criticism, the moral aspect so fundamental to Johnson but so foreign to modern critics, can point to a way of mediating between the ideological differences that have become so divisive in modern criticism and theory. *Abandoned property act to Equitable title* Walter Malins
