HOME ENERGY ASSISTANCE PROGRAM: HEAP GUIDELINES

The Home Energy Assistance Program (HEAP) is a federally-funded program managed by the Ohio Development Services Agency. It is designed to help income-qualified consumers pay for winter heating costs.

There are two different HEAP programs: HEAP and Emergency HEAP (E-HEAP). To use HEAP and E-HEAP your total household income must be at or below 175 percent of the federal poverty level.

HEAP

This program helps pay a portion of consumers' winter heating bills. Consumers can use HEAP one time per winter heating season. The amount of aid received varies and is determined by the following criteria:

- Household income at or below 175 percent of federal poverty guidelines.
- Number of people in household.
- Cost of primary heating fuel or bulk fuel supplied.
- Amount of aid received from federal grants and
- Geographic region of the state.

How to apply for HEAP

Applications can be submitted through May 31, 2015. Consumers should fill out the application completely and send it with a copy of their most recent energy bill, and proof of income for the past 12 months for all members of the household 18 years of age and over, to: HEAP, P.O. Box 1240, Columbus, Ohio 43216. Applications can be obtained from the following organizations:

- Community action agencies.
- County department of job and family services offices.
- Area agencies on aging, and
- Ohio Development Services Agency (HEAP office: 1-800-282-0889)

HEAP Payments

HEAP-qualified consumers living in households served by state-regulated utilities will receive a one-time credit on their winter heating bill. Vouchers will be sent to those HEAP-qualified consumers who:

- Receive bulk fuel.
- Have a master metered account (one main meter that serves several accounts), or
- Are customers of a rural cooperative or municipal utility.

New Techniques for Proving Plagiarism M. V. Dougherty, 2024-05-21 This book demonstrates that the principles of textual criticism borrowed from the fields of classics and

medieval studies have a valuable application for plagiarism investigations Plagiarists share key features with medieval scribes who worked in scriptoriums and produced copies of manuscripts Both kinds of copyists scribes and plagiarists engage in similar processes and they commit distinctive copying errors When committed by plagiarists these copying errors have probative value for making determinations that a text is copied and hence unoriginal To show the efficacy of the newly proposed techniques for proving plagiarism case studies are drawn from philosophy theology and canon law
