

SAFETY NOTICE USE ISOLATION TRANSFORMER WHEN SERVICING

Components having exposed safety grounds must be insulated by a ≥ 2500 V rms when using common or safety test leads on the internal and/or plug receptacle and isolation. Before switching this channel, it is important that the service technician read and follow the "Safety Precautions" and the "Personal Safety Notices" in this Service Manual.

The product and its internal protection against electric shock will adjust back to Hi-Z if exposed to a shock type.

This Service Manual is intended for qualified service technicians, it is not meant for the customer to do themselves. Qualified technicians have the necessary test equipment and know how to use them. Therefore, to properly read and follow the product protection and safety notices, it is important that the technician read and follow the "Safety Precautions" and the "Personal Safety Notices" in this Service Manual.

Improperly performed repairs can adversely affect the safety and reliability of the product and may void warranty. If you are not qualified to perform the service of this product properly and safely, you should not try to do so, but refer the repair to a qualified service technician.
