**Psychiatry Review and Canadian Certification Exam Preparation Guide**

James A. Bourgeois, Usha Parthasarathi, Ana Hategan, 2012-03-08 Psychiatry Review and Canadian Certification Exam Preparation Guide is the first exam preparation text intended specifically for candidates taking the Royal College of Physicians and Surgeons of Canada RCPSC psychiatry examination. This concise single volume review contains Canadian specific content so that readers need not modify other sources but may rely on it as their primary source of preparation. The volume is based on The American Psychiatric Publishing Board Review Guide for Psychiatry and cites only validated sources used in other APP books so candidates can be assured of its content integrity. It has been fully updated and it includes a multitude of features that will appeal to harried candidates. The information presented is consistent with Canadian psychiatry practice. References have been drawn from the Canadian psychiatric literature and laboratory units, medication names and doses, and the language employed are consistent with Canadian medicine and psychiatry. The volume is organized according to familiar DSM IV classifications allowing readers to quickly locate the most appropriate chapter. It does not neglect foundational knowledge, however, offering complete coverage of basic neuroanatomy as well as more advanced topics such as neuroimaging, psychopharmacology, and the cultural and legal aspects of psychiatric illness. Quick reference tables summarizing diagnostic criteria for specific psychiatric disorders and other critical information are especially useful and abundant. A rigorous 200 question practice exam and answer guide provide a reality check for prospective exam takers. The exam's structure reflects the actual board examination with question topics commingled and candidates seeking additional questions and annotated answers to enhance their preparation are referred to additional online self assessments. The Psychiatry Review and Canadian Certification Exam Preparation Guide represents the best of psychiatric scholarship combined with insight into the RCPSC psychiatry exam and a keen eye for presenting the necessary information in a logical, easy to remember manner. This one stop resource is destined to become candidates' constant companion in the months leading up to the exam and after.

**Geriatric Psychiatry Review and Exam Preparation Guide** Mark Rapoport, Andrew Wiens, Dallas Seitz, Evan Lilly, 2017-01-06 Geriatric psychiatry is a relatively young discipline within the field of North American psychiatry. The development of a workforce to meet the needs of an aging population has been identified as an urgent priority, but there is still much we don't know about fulfilling the mental health needs of older adults. For Mark J Rapoport, geriatric psychiatrists must assess and treat patients today in face of the limitations of what we know but also be armed with enthusiasm to create novel ways of impacting on the quality of life of older patients with mental illness. The chapters in this book include case scenarios, concise point form summaries of diagnostic and treatment approaches, up to date evidence syntheses, discussions of controversies, and a series of practical and thought provoking questions and answers. Geriatric Psychiatry is a succinct and advanced review of geriatric psychiatry that will help clinicians improve the psychiatric care of an aging population.
