**Laboratory Epistemologies** Jenny Boulboulé,2024-10-11 In Laboratory Epistemologies A Hands On Perspective Jenny Boulboulé examines the significance of hands on experiences in contemporary life sciences laboratories Addressing the relationship between contemplation and manipulation in epistemology Boulboulé combines participant observations in molecular genetics labs and microbiological cleanrooms with a longue dur e study of the history and philosophy of science She radically rereads Descartes s key epistemological text Meditations on First Philosophy reframing the philosopher as a hands on knowledge maker With this reading Boulboulé subverts the pervasive modern conception of the disembodied knower and puts the hands on experimenter at the heart of life sciences research In so doing she contributes a theoretical model for understanding how life processes on cellular and molecular levels are manually produced in today s techno scientific spaces By reassessing the Cartesian legacy and arguing that epistemology should be grounded in the standpoint of a hands on practitioner Boulboulé offers the philosophical and historical foundation to understand and study contemporary life sciences research as multisensory embodied practices

*Q Fever* Svetoslav P. Martinov,2022-09-01 Information on the changing epidemiology and expanding nosological range of Q fever in humans has gained much attention in the past decade Q fever is a zoonotic disease caused by the highly infectious pathogen *Coxiella burnetii* and has global distribution with important health social and economic implications A number of other properties and characteristics of the causative agent and disease define Q fever as a lasting and difficult veterinary and epidemiological problem namely the adaptability of *C burnetii* and its high resistance in the external environment the possibility of the existence of the agent in three and two member parasitic systems the availability of natural and agricultural foci of infection peculiarities of pathogenesis in humans and animals and the mechanisms of excretion of the pathogen into the environment and the high susceptibility of non immune populations of animals and people Given that *C burnetii* is included in the arsenal of bacteriological weapons as agent with potential bioterrorist threat must be borne in mind the strategic importance of this microorganism This book summarizes and analyzes the scientific facts and developments about Q Fever researched worldwide and performed by the author to propose a system for monitoring control and prevention covering the main necessary actions measures and activities in the fight against this fever There is an uneven level of knowledge of Q fever in animals and humans in various countries on the planet while the assessment of the relevance of the problem is often ambiguous and unrealistic in terms of veterinary medical and social and economic aspects which can result in an incomplete diagnosis inaccurate information about the spread of disease and lack of purposeful struggle The scientific topics discussed include Biological morphological and immunological properties of *Coxiella burnetii* Diagnosis clinical forms and manifestations pathologic changes Epidemiology of Q fever in animals and humans Prevention and Control

**Experimental Psychology: Quantitative experiments: pt. 1. Students' manual. pt. 2. Instructor's manual**

Edward Bradford Titchener,1905 The general purpose with which this book has been written is sufficiently indicated by its title I have selected a number of the classical experiments of Experimental Psychology and have tried to present them in such a way that their performance shall have a real disciplinary value for the undergraduate student Within this general purpose my aim has been two fold I have sought to show in the first place that psychology is above the laboratory that we employ our instruments of precision not for their own sake but solely because they help us to a refined and more accurate introspection And secondly just as in my Outline of Psychology and Primer of Psychology I gave the results of experimentation a prominent place in the psychological system so here I have treated the selected experiments not as separate exercises but as points of departure for systematic discussion PsycINFO Database Record c 2005 APA all rights reserved **Routledge French**
