Risk Regulation in the Internal Market Maria Weimer, 2019-03-13 This book offers a topical inquiry into the legal and political limits of EU regulation in the field of risk and new technologies surrounded by techno scientific complexity uncertainty and societal contestation It uses agricultural biotechnology as a paradigmatic example to illustrate the complex intertwinement between environmental public health economic and social concerns in risk regulation Weimer analyses the drawbacks of the EU approach to agricultural biotechnology showing that its reductionism i e the narrow understanding of GMO risks as well as the exclusion of broader societal concerns related to environmental and social sustainability has undermined both the legitimacy and effectiveness of EU regulation in this area Resistance to this approach however has also triggered legal innovations prompting us to re think EU internal market law including the way in which it manages the tensions between unity and diversity and between social and economic concerns This text offers fresh and original insights into how far the EU can go in harmonizing regulatory approaches to risk At the same time it proposes new ways of re thinking EU risk regulation to make it more responsive to different perspectives on risk and technology A unique feature of this book is that it contributes to various strains of scholarship including risk regulation internal market law public administration and studies of governance and regulation as well as connecting these themes to broader debates about the legitimacy of European integration and new ways of differentiated integration As a result it assists in re imagining the EU internal market and its regulation as a site of diversity

A History of Scientific Journals Aileen Fyfe, Noah Moxham, Julie McDougall-Waters, Camilla Mørk Røstvik, 2022-10-03 Modern scientific research has changed so much since Isaac Newton's day it is more professional collaborative and international with more complicated equipment and a more diverse community of researchers Yet the use of scientific journals to report share and store results is a thread that runs through the history of science from Newton's day to ours Scientific journals are now central to academic research and careers Their editorial and peer review processes act as a check on new claims and findings and researchers build their careers on the list of journal articles they have published The journal that reported Newton's optical experiments still exists First published in 1665 and now fully digital the Philosophical Transactions has carried papers by Charles Darwin Dorothy Hodgkin and Stephen Hawking It is now one of eleven journals published by the Royal Society of London Unrivalled insights from the Royal Society's comprehensive archives have enabled the authors to investigate more than 350 years of scientific journal publishing The editorial management business practices and financial difficulties of the Philosophical Transactions and its sibling Proceedings reveal the meaning and purpose of journals in a changing scientific community At a time when we are surrounded by calls to reform the academic publishing system it has never been more urgent that we understand its history

Sampling and Monitoring for the Mine Life Cycle McLemore, Virginia T., Smith, Kathleen S., Russell, Carol C., 2014-05-28 Sampling and Monitoring for the Mine Life Cycle provides an overview of sampling for environmental purposes and

monitoring of environmentally relevant variables at mining sites It focuses on environmental sampling and monitoring of surface water and also considers groundwater process water streams rock soil and other media including air and biological organisms The handbook includes an appendix of technical summaries written by subject matter experts that describe field measurements collection methods and analytical techniques and procedures relevant to environmental sampling and monitoring The sixth of a series of handbooks on technologies for management of metal mine and metallurgical process drainage this handbook supplements and enhances current literature and provides an awareness of the critical components and complexities involved in environmental sampling and monitoring at the mine site It differs from most information sources by providing an approach to address all types of mining influenced water and other sampling media throughout the mine life cycle Sampling and Monitoring for the Mine Life Cycle is organized into a main text and six appendices that are an integral part of the handbook Sidebars and illustrations are included to provide additional detail about important concepts to present examples and brief case studies and to suggest resources for further information Extensive references are included

Dream Town Laura Meckler, 2023-08-22 Winner of the Ohio Book Award Finalist of the Malott Prize for Recording Community Activism Can a group of well intentioned people fulfill the promise of racial integration in America In this searing and intimate examination of the ideals and realities of racial integration award winning Washington Post journalist Laura Meckler tells the story of a decades long pursuit in Shaker Heights Ohio and uncovers the roadblocks that have threatened progress time and again in housing in education and in the promise of shared community In the late 1950s Shaker Heights began groundbreaking work that would make it a national model for housing integration And beginning in the seventies it was known as a crown jewel in the national move to racially integrate schools The school district built a reputation for academic excellence and diversity serving as a model for how white and Black Americans can thrive together Meckler herself a product of Shaker Heights takes a deeper look into the place that shaped her investigating its complicated history and its ongoing challenges in order to untangle myth from truth She confronts an enduring and troubling question if Shaker Heights has worked so hard at racial equity why does a racial academic achievement gap persist In telling the stories of the Shakerites who have built and lived in this community Meckler asks What will it take to fulfill the promise of racial integration in America What compromises are people of all races willing to make What does success look like and has Shaker achieved it The result is a complex and masterfully reported portrait of a place that while never perfect has achieved more than most and a road map for communities that seek to do the same Includes black and white images **Minerals**

The Top Books of the Year Life Science November Memorandum 2013 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the engaging narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Life Science November Memorandum 2013 : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
