Etv Television Guide:

TV Guide Stephen F. Hofer, 2006 This book looks at the origins and growth of television through the pages of TV Guide and covers the complete run of this American icon from the first guides in 1953 to the last issue in guide format on October 9 2005 It includes full color reproductions of every cover ever printed and is both a collector's guide with pricing included and a retrospective view of the medium

TV Guide, 1999 *Viewers Like You* Laurie Oullette, 2012-07-24 How public is public television if only a small percentage of the American people tune in on a regular basis When public television addresses viewers like you just who are you Despite the current of frustration with commercial television that runs through American life most TV viewers bypass the redemptive oasis of the wasteland represented by PBS and turn to the sitcoms soap operas music videos game shows weekly dramas and popular news programs produced by the culture industries *Viewers Like You* traces the history of public broadcasting in the United States questions its priorities and argues that public TV's tendency to reject popular culture has undermined its capacity to serve the people it claims to represent Drawing from archival research and cultural theory the book shows that public television's perception of what the public needs is constrained by unquestioned cultural assumptions rooted in the politics of class gender and race

World Guide to Television, 1998 *English Journal*, 1976 **Educational Television for Kentucky** Kentucky. General Assembly. Legislative Research Commission, Edward V. Schten, 1961

Local TV Annie Laurie Sullivan, Lauren Herold, 2025-10-15 *Local Television Histories Communities and Aesthetics* offers critical analyses of an expansive range of practices policies and debates in local television histories from the United States Television is typically perceived as a commercial and or national form of communication with the potential to reach millions of viewers Yet from the earliest years of television through the present communities have participated in the production of television creating media relevant to their needs and concerns This collection broadens our notion of what this medium can achieve allowing for innovative representation and community use that disrupts the political economic national and social norms of mainstream offerings Rather than a comprehensive historical survey which given the sheer number of local television productions would be impossible we've curated methodologically distinctive chapters that assess the possibilities and limitations of television's mission to serve local publics In doing so we are attentive to the idiosyncratic histories technologies and functions of local television that have emerged in different cities over the course of the 20th and 21st Century We likewise amplify the use of television by marginalized groups whose perspectives are too often sidelined or distorted in mainstream fare as a site for community formation cultural expression civic engagement and political action

Channeling the Future Lincoln Geraghty, 2009-04-02 Though science fiction certainly existed prior to the surge of television in the 1950s the genre quickly established roots in the new medium and flourished in subsequent decades In *Channeling the Future Essays on Science Fiction and Fantasy Television* Lincoln Geraghty has assembled a collection of essays that focuses on the disparate visions of the past present and future offered by

science fiction and fantasy television since the 1950s and that continue into the present day These essays not only shine new light on often overlooked and forgotten series but also examine the look of science fiction and fantasy television determining how iconography location and landscape special effects set design props and costumes contribute to the creation of future and alternate worlds Contributors to this volume analyze such classic programs as The Twilight Zone Voyage to the Bottom of the Sea and The Man from U N C L E as well as contemporary programs including Star Trek The Next Generation Angel Firefly Futurama and the new Battlestar Galactica These essays provide a much needed look at how science fiction television has had a significant impact on history culture and society for the last sixty years *TV Guide Almanac* Craig T.

Norback, Peter G. Norback, 1980 **Public Television** William Hawes, 1996 KUHT TV in Houston Texas was the first non commercial educational television station This is the story of its development and struggle for survival
