Grade Accounting November 2014:

Education Savings Accounts Nat Malkus, Adam Peshek, Gerard Robinson, 2017-03-16 School choice has been central to American education policy debate for a quarter century. But throughout school choice has been just that school choice. In a potentially profound development, Education Savings Accounts (ESAs) reimagine parent choice in ways that may upend many assumptions that have framed issues of school choice in the past. ESAs offer something wholly new, allowing parents to customize their child's education by stitching together traditional schools and different education providers, including tutors, therapists, online, and blended models. Of course, a raft of new questions and potential challenges accompany these new ESA programs, which in 2015 existed in five states: Arizona, Florida, Mississippi, Nevada, and Tennessee, and were introduced by legislators in another sixteen. Yet for all their potential, ESAs are barely understood. This volume seeks to provide a comprehensive, fair-minded treatment of ESAs and will address the rationale for them, the challenges they pose, what it takes for them to work, and the political and legal dynamics at play. **Minerals Yearbook** Mines Bureau, Geological Survey, Interior Department, 2018-04-19 The region of Europe and Central Eurasia defined in this volume encompasses territory that extends from the Atlantic Coast of Europe to the Pacific Coast of the Russian Federation. Minerals Yearbook Geological Survey, Interior Department, Mines Bureau, 2019-02-15 This volume covering metals and minerals contains chapters on approximately 90 commodities. In addition, this volume has chapters on mining and quarrying trends and on statistical surveying methods used by Minerals Information, plus a statistical summary. Minerals Yearbook Mines Bureau, Geological Survey, Interior Department, 2018-04-19 This edition of the U.S. Geological Survey (USGS) Minerals Yearbook discusses the performance of the worldwide minerals and materials industries during year 2013 and provides background information to assist in interpreting that performance. These annual reviews are designed to provide timely statistical data on mineral commodities in various countries. This volume covers data from Asia and the Pacific. Each report includes sections on government policies and programs, environmental issues, trade and production data, industry structure and ownership, commodity sector developments, infrastructure, and a summary outlook.
