

The main extensions of model 095-4 cranes are hydraulic, retractable at almost 75 meters.

The design solutions include bending the oil for the hydraulic extensions through the cylinder sections, which allows for all extension reeling or jacking on the roller track.

HEBAB 095 – the strong choice in the 10 tm class

The HEBAB 095 is a further development of the popular HEBAB 090, but it does everything better. Both cranes look very similar, but that's where the similarities cease.

The HEBAB 095 features a new, low-headroom boom system with a separate telescopic cylinder on each extension, we have done away with all moving on the outer boom and extensions and reduced the need for a hook attachment to just one – on the outer extension. All this leads to easier handling in confined areas. And being larger steel parts consistently reduce flexion and give smoother movements.

The HEBAB 095's working geometry has been optimized, resulting in better lifting capacity – in the upper lifting range, capacity has been boosted by over 20%. What's more, the 095 has an amazing close-in lifting height.

The HEBAB 095 is a modern general cargo crane in the 10 tm-capacity class that offers excellent maneuverability. Choose between cruise controls, HEBAB's well-known hi-vision version with the new computerized top or the more advanced Comfort with HEBAB vision in and out-of-the-control-console.
