that Monitor's new role as set out in the Health and Social Care Bill has been more clearly defined. The Committee believes Monitor has established a reputation as an effective regulator of Foundation Trusts and that it is important to safeguard that hard won reputation. That means insisting on the maintenance of a rigorous approvals system. It also means maintaining an effective oversight regime in what are likely to be increasingly challenging times. Finally following government amendments to the Health and Social Care Bill which were tabled at Commons Report Stage it means the operation of an effective distress and failure regime for Foundation Trusts.

The Fraternal Monitor, 1929 2012 Accountability Hearing with Monitor
 Great Britain: Parliament: House of Commons: Health Committee, 2013-03-05 This is the second annual accountability hearing with Monitor from the Health Committee. The parallel roles of Monitor and CQC were criticised in the Francis report on the Mid Staffordshire Foundation Trust HC 898 session 2012 13 ISBN 9780102981469 because they created significant opportunities for confusion. The Health Committee concurs and stresses that it needs to be addressed urgently to avoid the twin dangers of gaps in regulation and duplication of regulation. This report concludes that the proposal to use a combination of transitional powers and licensing provisions designed to apply to all providers of NHS care to provide the framework for the long term regulation of Foundation Trusts is profoundly unsatisfactory. The role of Monitor in relation to competition in the NHS remains unclear and the respective roles of Monitor and the Competition Commission in the market for health and care services need urgent clarification. Monitor's positive approach towards the commissioning of integrated care pathways is welcome. Monitor should use its role in setting the tariff paid for certain NHS services alongside the NHS Commissioning Board to encourage system redesign and the integration of service provision as well as to discourage cherry picking of the most economically attractive patients. The establishment of a provider failure regime is welcome but a number of important elements in that regime are not yet fully developed and further progress is needed over the coming months.
