

Self Reflection Paper

My major is medical office assistant. I am 33 years old and I am happily married with two beautiful children. The most valuable lesson I have learned in this journey is that I wish I would have decided to achieve this goal earlier in life. I think that it would have been easier without all the extra responsibilities, but when you are younger you sometimes don't understand the importance of your education. My goal with this degree is better myself, and my family. I know the health industry will be growing and seems like the job opportunities will be there in this field.

I decided to take this course mainly online because of my family and also because I am currently working part time with the Department of Rehabilitation. It seemed like it would be easier to be able to work on my own time than to have a set schedule that I had to go by. Sometimes this concept was correct and sometimes I think having face to face correspondence would have made some of the lessons more understanding. I am currently on the last semester of my major, besides of the interning part. I am looking forward to finally being able to use the skills that I have learned on this path.

On this journey I have took many fulfilling and very helpful courses. Some of these courses consist of:

- Intermediate Keyboarding
- Advanced Keyboarding
- Word Processing

With these courses I have improved my typing and Word skills. I have learned this is a very important skill to maintain in the field I would like to pursue.

Other courses that I have took that helped improved my filing and organization skills, ethic skills, writing skills and communication skills are as follows:

- Employment Methods
- Records Management
- Technical Writing
- Fundamentals of Effective Speaking
- Communications

I feel the most important courses that I took on my journey, I have not listed yet. These courses really helped me with medical terminology, the basics to the job of medical transcriptionist, and medical coder. Learning how to fill out medical records, insurance documents, and the importance of the accuracy. Knowing the anatomy of the body and the correct medical terms and codes to use for coding and transcribing. I feel that these classes were the core to my major.

- Introduction to Medical Terminology
- General Psychology
- Medical Office Procedures

How To Write A Personal Reflection Paper:

Engaging Ideas John C. Bean, Dan Melzer, 2021-06-09 Use your course's big ideas to accelerate students' growth as writers and critical thinkers. The newly revised third edition of *Engaging Ideas* delivers a step-by-step guide for designing writing assignments and critical thinking activities that engage students with important subject matter questions. This new edition of the celebrated book now written by the co-author team of Bean and Melzer uses leading and current research and theory to help you link active learning pedagogy to your course's subject matter. You'll learn how to design formal and informal writing assignments that guide students toward thinking like experts in your discipline. Use time-saving strategies for coaching the writing process and handling the paper load including alternatives to traditional grading such as portfolio assessment and contract grading. Help students use self-assessment and peer response to improve their work. Develop better ways than the traditional research paper to teach undergraduate reading and research. Integrate social media, multimodal genres, and digital technology into the classroom to promote active learning. This book demonstrates how writing can easily be integrated with other critical thinking activities such as inquiry discussions, simulation games, classroom debates, and interactive lectures. The reward of this book is watching students come to class better prepared, more vested in the questions your course investigates, more apt to study purposefully, and more likely to submit high-quality work. Perfect for higher education faculty and curriculum designers across all disciplines. *Engaging Ideas* will also earn a place in the libraries of graduate students in higher education.

Writing Theology Well Lucretia B. Yaghjian, 2006-11-24 In its creative integration of the disciplines of writing, rhetoric, and theology, *Writing Theology Well* provides a standard text for theological educators engaged in the teaching and mentoring of writing across the theological curriculum. As a theological rhetoric, it will also encourage excellence in theological writing in the public domain by helping to equip students for their wider vocations as writers, preachers, and communicators in a variety of ministerial and professional contexts.

Handbook of Reflection and Reflective Inquiry Nona Lyons, 2010-04-07 Philosophers have warned of the perils of a life spent without reflection, but what constitutes reflective inquiry and why it's necessary in our lives can be an elusive concept. Synthesizing ideas from minds as diverse as John Dewey and Paulo Freire, the *Handbook of Reflection and Reflective Inquiry* presents reflective thought in its most vital aspects, not as a fanciful or nostalgic exercise but as a powerful means of seeing familiar events anew, encouraging critical thinking and crucial insight, teaching and learning. In its opening pages, two seasoned educators, Maxine Greene and Lee Shulman, discuss reflective inquiry as a form of active attention, Thoreau's wide awakeness, an act of consciousness, and a process by which people can understand themselves, their work, particularly in the form of life projects, and others. Building on this foundation, the *Handbook* analyzes through the work of 40 internationally oriented authors definitional issues concerning reflection, what it is and is not, worldwide social and moral conditions contributing to the growing interest in reflective inquiry in professional education. Reflection as promoted across professional educational domains including K-12 education.
