Works like a Charm Robert O. McDonald,2023-08-01 Works like a Charm addresses a simple question Why are incentives everywhere now From inducements to work harder at our jobs to tax rebates for corporations incentive names a general theory of motivation according to economists we are incentive driven creatures Yet far from being a neutral generalization this understanding of human behavior smuggles in a quintessentially economic way of seeing the world Works like a Charm applies Jacques Lacan s psychoanalytic concept of retroactive causality to explain the metastasis of the language and logic of incentives To discover an incentive is to place in the untouchable past an economic cause for a contextual historical force Tracing incentive from its roots in antiquity to its uptake by neoclassical and then Chicago school economists Robert O McDonald diagnoses the spread of incentives across the social cultural and political field and warns readers of the dangers of handing over causality to the economists

Distorted Descent Darryl Leroux,2019-09-20 Distorted Descent examines a social phenomenon that has taken off in the twenty first century otherwise white French descendant settlers in Canada shifting into a self defined Indigenous identity This study is not about individuals who have been dispossessed by colonial policies or the multi generational efforts to reconnect that occur in response Rather it is about white French descendant people discovering an Indigenous ancestor born 300 to 375 years ago through genealogy and using that ancestor as the sole basis for an eventual shift into an Indigenous identity today After setting out the most common genealogical practices that facilitate race shifting Leroux examines two of the most prominent self identified Indigenous organizations currently operating in Quebec Both organizations have their origins in committed opposition to Indigenous land and territorial negotiations and both encourage the use of suspect genealogical practices Distorted Descent brings to light to how these claims to an Indigenous identity are then used politically to oppose actual living Indigenous peoples exposing along the way the shifting politics of whiteness white settler colonialism and white supremacy
