

Service Schematics

Introduction

1999

This document is intended for use by authorized service centers only.

Service Information was created with focus on customer care. The purpose of this document is to provide further technical repair information for NISSA mobile phones on used by service activities. It contains additional information such as e.g. "Component Angle", "Frequency Band List" or "Antenna Cable List". The "Signal strength" gauge gives a good and fast overview about the most important signals and voltages on board. Using process time and improving the repair quality is the aim of this document. It is to be used additionally to the service manual and after training or service information such as Service Bulletin.

All measurements were on 20-year-old females.
