Families in Transition Peter Gossage, 1999-09-01 Gossage uses a family reconstitution method drawing on local parish registers and manuscript census schedules to focus on marriage household organization and family size in this context of social and economic change Family formation was profoundly affected as couples adjusted to the new urban industrial setting Gossage demonstrates that demographic behaviour was increasingly differentiated by social class with distinct marriage and fertility patterns emerging among bourgeois and proletarian families Bourgeois women who married in the 1860s for example were already limiting family size a crucial shift that did not occur in working class families until almost a generation later Families in Transition demonstrates the extent to which stereotypes about family life in Quebec before the Quiet Revolution need to be revisited Far from being passive static uniformly prolific and constrained by religious and cultural

perspectives Saint Hyacinthe families responded quickly to the changing realities of the day reinventing marriage patterns and domestic arrangements to fit the new industrial capitalism of the nineteenth century In this sense they were truly families in transition Manual of Evaluation Standards for Civilian Jobs in the Department of the Army ,1951 **Selected Characteristics of Occupations Defined in the Dictionary of Occupational Titles** ,1981 *Manuals Combined: NAVY SAFETY AND OCCUPATIONAL HEALTH PROGRAM MANUAL & MARINE CORPS OCCUPATIONAL SAFETY AND HEALTH (OSH) PROGRAM MANUAL* , 1 Purpose To implement policy changes recommended by the Naval Inspector General NAVINSGEN to Office of the Chief of Naval Operations Special Assistant for Safety Matters OPNAV N09F and to define and outline the conduct and reporting of the self assessment process for safety and occupational health SOH programs 1 PURPOSE The Marine Corps Occupational Safety and Health OSH Program Manual promulgates the requirements and establishes procedures to implement the reference 2 INFORMATION This Manual and all references provide the requirements and guidance for commanders and Marine Corps OSH Program professionals to identify and manage risk maintain safe and healthful operational environments and meet the Mission Essential Task List METL requirements 3 SCOPE This Manual is applicable to all Marine Corps activities including nonappropriated fund activities and operations that are under the sponsorship of the Marine Corps Community Services MCCS Director or unit MCCS officers for the purposes of morale welfare and recreation This Manual shall also apply to activities that are involved in the acquisition operation sponsorship or maintenance of all facilities activities and programs CMC SD will provide guidance upon request for program responsibilities on contractors e g public private venture etc 4 EFFECTIVE DATE This Manual is effective the date signed Prior to implementation of this Manual activities must where applicable discharge their labor relation s obligations Assistance and guidance may be obtained from CMC MPC DISTRIBUTION STATEMENT A Approved for public release distribution is unlimited *The Social Basis of Medicine* Andrew Russell,2009-04-13 Winner of the BMA 2010 Student Textbook of the Year Award Following the GMC s call for greater social and behavioural science input into undergraduate medical education this title in the Lecture Notes series provides an understanding of how education social class family economics and occupational circumstances as well as cultural and ethnic influences shape patients and health professionals alike A deeper appreciation and understanding of these issues can have a positive effect on clinical diagnosis and practice Emphasising clinical relevance at all times the book features photographs and line drawings to illustrate key points and case studies that provide real life illustrations of the points discussed It also contains points of view boxes which encourage critical thinking and challenge the reader to come up with their own explanations for the phenomena described Lecture Notes The Social Basis of Medicine provides information and materials useful not only for undergraduate medical students but also for recently graduated and practising doctors who wish to have a greater understanding of and to develop their skills in this area **Federal Register** ,2012-08 Industrial Job Evaluation Systems United States Employment Service,1947

Retail Worker Politics, Race and Consumption in South Africa Bridget Kenny, 2018-05-23 This book argues that we need to focus attention on the ways that workers themselves have invested subjectively in what it means to be a worker By doing so we gain an explanation that moves us beyond the economic decisions made by actors the institutional constraints faced by trade unions or the power of the state to interpellate subjects These more common explanations make workers and their politics visible only as a symptom of external conditions a response to deregulated markets or a product of state recognition Instead through a history of retailing as a site of nation and belonging changing legal regimes and articulations of race class and gender in the constitution of political subjects from the 1930s to present day Wal Mart this book presents the experiences and subjectivities of workers themselves to show that the collective political subject workers abasebenzi is both a durable and malleable political category From white to black women s labour the forms of precariousness have changed within retailing in South Africa Workers struggles in different times have in turn resolved some dilemmas and by other turn generated new categories and conditions of precariousness all the while explaining enduring attachments to labour politics

Work, Jobs, and Occupations National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Committee on Occupational Classification and Analysis, 1980-02-01 Various editions of the Dictionary of Occupational Titles have served as the Employment Service s basic tool for matching workers and jobs The Dictionary of Occupational Titles has also played an important role in establishing skill and training requirements and developing Employment Service testing batteries for specific occupations However the role of the Dictionary of Occupational Titles has been called into question as a result of planned changes in the operation of the Employment Service A plan to automate the operations of Employment Service offices using a descriptive system of occupational keywords rather than occupational titles has led to a claim that a dictionary of occupational titles and the occupational research program that produces it are outmoded Since the automated keyword system does not rely explicitly on defined occupational titles it is claimed that the new system would reduce costs by eliminating the need for a research program to supply the occupational definitions In light of these considerations the present volume evaluates the future need for the Dictionary of Occupational Titles

Technological Change and Labor Markets Reyna Elizabeth Rodríguez Pérez, Liliana Meza González, 2024-10-28 In developed countries like the US Germany and the UK it has been observed that workers who perform non routine activities either cognitive or manual have benefited in terms of employment and income while those performing routinary tasks have seen their job prospects and wages decline This has led to a polarization of the labor markets and to a decrease in certain measures of inequality This phenomenon has been attributed to task biased

technological change TBTC which differs from the skilled biased technological change in the fact that not only highly skilled workers have benefited from technology advancement This book presents evidence of how digitalization and task biased technological change are affecting the labor markets of different regions of the world and examines the factors that cause this inequality among nations It examines recent issues around the effect of task biased technological change on labor markets and the economy in general with a comparison of different countries in Central and Eastern Europe North America and Latin America as well as in other regions of the world The incorporation of the abovementioned regions presents relevant particularities for the subject matter addressed in the book The book also considers questions such as how labor market effects differ by gender and what the impact of digital skills on employment inequalities and public policies might be In so doing it identifies the advances opportunities and changes that have taken place while also making public policy proposals The main market for the book is the global community of graduate students and researchers in the field of economics and specifically in the study of labor markets

Politics and Ideology in Canada Michael Ornstein, Michael Stevenson, 2003-02-18 Winner of the Harold Adams Innis Prize Politics and Ideology in Canada examines a period of crucial historical change in Canada beginning in the mid 1970s when the crisis of the Keynesian welfare state precipitated a transition to a new political order based on the progressive downsizing of state involvement in the economy and society Using class and ideology as key concepts Michael Ornstein and Michael Stevenson examine this transition in terms of the nature of hegemony and hegemonic crisis and the conditions of political order and instability These concepts guide the interpretation of three large surveys of representative samples of the Canadian public and two unique elite surveys conducted between 1975 and 1981 The surveys cover an exceptionally broad spectrum of political issues including social programs civil and economic rights economic policy foreign ownership labour relations and language issues and sovereignty A wide ranging analysis of public and elite attitudes reveals a hegemonic order through the early 1980s built around public support for the institutions of the Canadian welfare state But there was also widespread public alienation from politics Public opinion was quite strongly linked to class but not to party politics Regional variation in political ideology on a broad range of issues was less pronounced than differences between Quebec and English Canada Much deeper ideological divisions separated the elites with a dramatic polarization between corporate and labour respondents State elites fell between these two though generally more favourable to capital The responses of the business elites reveal the ideological roots of the Mulroney years in support for cuts in social programs free trade privatization and deregulation
