Naturally, at this moment, you may be inclined to know about the level of your emotional intelligence. For this purpose you have to respond to the questions given ahead carefully by taking care of the following things.

1. You are provided with a test booklet. The front page of this booklet contains instructions and in the remaining pages there are 100 test statements for being responded as Yes or No.

### **Emotional Intelligence, Social Intelligence, Locus of Control in Relation to Stress Management in Adolescents**

Dr. Tanveer Habeeb Khan, 2017-01-09 There is a tide which begins to rise in the veins of youth at the age of eleven or twelve. It is called by the name of adolescence. If that tide can be taken at the flood and a new voyage begun in the strength and along the flow of its current we think that it will move on to fortune. Ross J S 1951 p 153      Positive Psychology Dr. Agyajit Singh, 2021-01-28 Positive psychology has its origin in the first decade of the twenty first century. The present era is full of hustle and bustle, tension, strains and stresses, anxiety, conflicts, frustration and maladjustment which have made the life of a human being a miserable one. Psychology is not limited to the study of human behaviour but its scope has widened to the human welfare. Psychologists are trying to make the life of a man mentally healthy, happy and worth living. Positive psychology is the outcome of all these adversaries which are being faced by a person in these days of fast life and high level competition. Researches are being conducted in the areas of psychological well being, emotional intelligence, locus of control, self efficacy and various other topics which are related with the welfare of an individual and which are concerned with his mental and emotional health. Positive psychology lays more emphasis on inculcating positive behaviour among human beings. Positivity of behaviour means developing positive thinking, positive attitude and positive actions. The present book POSITIVE PSYCHOLOGY: SOME EMPIRICAL INDIAN STUDIES has been devised and prepared from this angle. The editor of this book has highlighted the research studies of his PhD students who have completed their research projects during the last two decades under his supervision. All these research problems are related with the different areas of positive psychology. The purpose of this endeavor is to acquaint the readers of this book with the latest researches being conducted in these days in India. Moreover, the future research students working in these different areas of Education, Psychology and Physical Education will get benefit out of the conclusions drawn in these studies, especially in the selection of their research problems. Other scholars will also find the recommendations made in these studies useful to them in their lives. The editor of this book is thankful to all his PhD students who have permitted him to quote their research findings and bring out their research work in a book form as it has highlighted their genuine work completed under his guidance. He will be failing in his duty if he does not thank Mr Chander Mani Gosain, Prop. Of Friends Publication, New Delhi, who has attempted to give a beautiful shape to this book. The writings of this book will advance the knowledge in the field of Psychology and Education. This book is dedicated to all his students and friends who have showered him with their love and affection which is a source of      **The International Journal of Indian Psychology, Volume 2, Issue 2, No. 1** IJIP.In, 2015-01-25 The International Journal of Indian Psychology ISSN 2348-5396 is an academic journal that examines the intersection of psychology, home sciences and education.
