embedded This volume discusses various ways of approaching the problems associated with the very broad phenomenon of specialist languages by means of the analytical mechanisms and theoretical conceptions developed within the framework of Cognitive Linguistics The volume includes research carried out by world renowned experts in the field

Variation and Co-operative Communication Strategies in Air Traffic Control English Eveline Wyss-Bühlmann, 2005 The aim of this study is to establish the co operative communication strategies that are used in air traffic control ATC conversations The research deals with the question what kind of co operative communication strategies do pilots and controllers employ in a speech situation with a restricted use of vocabulary which generally does not permit any deviations from standard phraseology The strategies in ATC speech are then compared to those used by second language learners Faerch and Kasper s 1983 taxonomy of communication strategies will serve as a basis for this comparison The author analyses authentic speech samples from various ATC workstations at Zurich Airport and evaluates various aspects of phraseology training of air traffic controllers

Variational Text Linguistics Christoph Schubert, Christina Sanchez-Stockhammer, 2016-05-24 Owing to the ever increasing possibilities of communication especially with the advent of modern communication technologies register analysis offers a constantly widening range of research opportunities Still research has mainly concentrated on well established and frequent registers such as newspaper articles while many descriptive and theoretical issues have not yet been sufficiently investigated This volume gives a state of the art insight into register studies and points out emerging trends as well as new directions for future research Furthermore it provides a forum for the description and discussion of registers which have not received an appropriate amount of attention so far In particular it deals with specialized offline and online registers cross register comparison as well as regional contrastive and diachronic register variation In parallel to the new discipline of variational pragmatics this volume aims to foster the discipline of variational text linguistics and to initiate fundamental investigations in this area This field of research provides new insights into the concept of register since it covers both functional and regional types of textual variation

Supporting the Training of Aviation English Trainers and Assessors Anna P. Borowska, Olena Petrashchuk, 2024-11-12 This volume addresses the importance of training Aviation English trainers and assessors in accordance with the International Civil Aviation Organization s new language requirements It explains how such a training system works in the aviation context so that the human factors of language could be viewed in synchrony with numerous other factors that impact flight safety This is a compact and comprehensive text for those who are thinking of becoming Aviation English experts as well as for those who train them The guidelines presented are ready to be applied at specially tailored courses all over the world as well as being useful for self study Readers can use this concise publication without having to continually devise supplementary materials This book supports Aviation English experts professionalism that is directed at minimising potential misunderstandings of aeronautical communication

English in Global Aviation Eric Friginal, Elizabeth Mathews, Jennifer Roberts, 2019-11-14 Taking readers step by step through the major
