James Wells, 2007 *Remote sensing: an operational technology for the mining and petroleum industries* Institution of Mining & Metallurgy, 2014-11-14 *Scientific and Technical Aerospace Reports*, 1994 Lessons from the Identity Trail

Ian Kerr, Carole Lucock, Valerie Steeves, 2009-03-18 During the past decade rapid developments in information and communications technology have transformed key social commercial and political realities Within that same time period working at something less than internet speed much of the academic and policy debates arising from these new and emerging technologies have been fragmented There have been few examples of interdisciplinary dialogue about the potential for anonymity and privacy in a networked society *Lessons from the Identity Trail* fills that gap and examines key questions about anonymity privacy and identity in an environment that increasingly automates the collection of personal information and uses surveillance to reduce corporate and security risks This project has been informed by the results of a multi million dollar research project that has brought together a distinguished array of philosophers ethicists feminists cognitive scientists lawyers cryptographers engineers policy analysts government policy makers and privacy experts Working collaboratively over a four year period and participating in an iterative process designed to maximize the potential for interdisciplinary discussion and feedback through a series of workshops and peer review the authors have integrated crucial public policy themes with the most recent research outcomes Handbook of Occupational Health and Wellness Robert J. Gatchel, Izabela Z. Schultz, 2012-12-21 This book integrates the growing clinical research evidence related to the emerging transdisciplinary field of occupational health and wellness It includes a wide range of important topics ranging from current conceptual approaches to health and wellness in the workplace to common problems in the workplace such as presenteeism absenteeism common illnesses job related burnout to prevention and intervention methods It consists of five major parts Part I Introduction and Overviews provides an overview and critical evaluation of the emerging conceptual models that are currently driving the clinical research and practices in the field This serves as the initial platform to help better understand the subsequent topics to be discussed Part II Major Occupational Symptoms and Disorders exposes the reader to the types of critical occupational health risks that have been well documented as well as the financial and productivity losses associated with them In Part III Evaluation of Occupational Causes and Risks to Workers Health a comprehensive evaluation of these risks and causes of such occupational health threats is provided This leads to Part IV Prevention and Intervention Methods which delineates methods to prevent or intervene with these potential occupational health issues Part V Research Evaluation Diversity and Practice concludes the book with the review of epidemiological measurement diversity policy and practice issues with guidelines on changes that are needed to decrease the economic and health care impact of illnesses in the workplace and recommendations for future All chapters provide a balance among theoretical models current best practice guidelines and evidence based documentation of such models and guidelines The contributors were carefully selected for their unique knowledge as well as their ability to meaningfully present this information in a comprehensive manner As such

this Handbook is of great interest and use to health care and rehabilitation professionals management and human resource personnel researchers and academicians alike
