Changing Times Martin Chick, 2019-12-05 This is a study of how and why the British economy has changed since 1951 It covers the Golden Age of 1945-1973 when unemployment was below one million when governments built millions of council houses and flats when electricity telephones and gas were supplied by nationalised monopolies when income and wealth inequality were narrowing and when the UK was not a member of the European Economic Community Moving through the inflation rising unemployment and rapid contraction of the manufacturing industry from the mid 1970s Changing Times examines the transfer of assets which was effected in the privatisation of public housing and nationalised industries from the early 1980s The role of the State changed as public investment fell The financing of old age care of state pensions and of the National Health Service became of increasing concern and were less politically amenable to the approach of using private finance the Private Finance Initiative and tuition fees to fund former public obligations Changes were made to the system of taxation but public expenditure changed little as a share of national income although the government now built little Difficulties emerged in ensuring adequate housing for a growing population and uncertainty grew as to where future investment in necessities like electricity supply would come from Having narrowed in the Golden Age inequality of income and wealth widened Environmental concerns also grew from the local smogs of the 1950s through the concern with acid rain from the 1960s to the current global concern with climate change The financial crash of 2008 and the decision to Brexit in the referendum of 2016 reduced economic growth and highlighted the extent of economic change since 1951 This is a study of that change

Macroeconomic Measurement Versus Macroeconomic Theory Merijn Knibbe, 2019-12-06 Ideally scientific theory and scientific measurement should develop in tandem but in recent years this has not been the case in economics There used to be a time when leading economists or their students established or led statistical offices and took care that the measurements were consistent with the theory and vice versa Not anymore Macroeconomic theorists and macroeconomic statisticians do not even speak the same language any longer They do use the same words such as consumption investments or unemployment but the meanings can often be different This book maps the differences between macroeconomic theory and measurement and explores them in some detail while also tracking their intellectual historical and in some cases ideological origins It also explores the possible policy implications In doing so the book draws on two separate strands of literature which are seldom used in unison macro statistical manuals and theoretical macro papers By doing so the book contributes to the effort to bridge the gap between them without compromising on the idea that a meaningful science of economics should in the end be based upon individual people and households and their social and cultural embedding instead of a representative consumer or Robinson Crusoe figure This work is essential reading for students economists statisticians and professionals

Money Creation in Fiat and Digital Currency Systems Mr. Marco Gross, Christoph Siebenbrunner, 2019-12-20 To support the understanding that banks debt issuance means money creation while centralized nonbank financial institutions and decentralized bond market intermediary lending does not the paper aims to convey two related points First the notion of money creation as a result of banks loan creation is compatible with the notion of liquid

funding needs in a multi bank system in which liquid fund reserve transfers across banks happen naturally Second interest rate based monetary policy has a bearing on macroeconomic dynamics precisely due to that multi bank structure It would lose its impact in the hypothetical case that only one singular commercial bank would exist We link our discussion to the emergence and design of central bank digital currencies CBDC with a special focus on how loans would be granted in a CBDC world
