Lamming Report Baby P:

Learning from Baby P Sharon Shoesmith, 2016-08-20 Sharon Shoesmith was Director of Children's Services for Haringey in 2007 at the time of the death of Peter Connelly also known as Baby P. In Learning from Baby P she carries out a dispassionate analysis of the events which followed Peter Connelly's death, documenting the responses of the media, politicians and the public. She explores the psychological and emotional responses we share when faced with such horrifying cases of familial child homicide and how a climate of fear and blame which follows such tragedies can lead to negative consequences for other children at risk of harm and for the social workers striving to protect them. Learning from Baby P is a thought provoking book which aims to deepen understanding and shed light on the difficult relationship between politics, the media and child protection.

The Story of Baby P Ray Jones, 2014-07-16 In England in 2007 Peter Connelly, a 17 month old little boy known initially in the media reporting as Baby P, died following terrible neglect and abuse. Fifteen months later his mother, her boyfriend and the boyfriend's brother were sent to prison. But media attention turned on those who worked to protect children, especially the social workers and their managers who became the focus of the reporting and of the blame. This book tells what happened to Baby P, how the story was told and became focused on the social workers, its threatening consequences for those who work to protect children and its considerable impact on the child protection system in England. This is the first book to draw together all evidence available on this high profile case and will make a unique and crucial contribution to the topic. It will make essential reading for everyone who is concerned about child protection and the care of children and about the media's impact. This revised edition contains a new Afterword bringing the story up to date.
