

CARRIAGE, MOTOR, 105-MM HOWITZER, M1

Section XXXX
AMMUNITION

181. GENERAL.

a. Ammunition for the 105-mm howitzer, M1A1, is issued and shipped in the form of fused complete rounds of assembled ammunition. In assembled ammunition, the fused projectile is seated loosely in the neck of the cartridge case containing the primer and propelling charge; the round is loaded into the weapon as a unit. The propelling charge of assembled ammunition usually is divided into sections, to permit adjustment in the field for nose firing. However, in the HE, A.T. round, which is a special type, the propelling charge is not adjustable. A complete round includes all the components required to fire a weapon once.

182. FIRING TABLES.

a. Firing data for ammunition fired in the M1A1 howitzer when mounted on the M7 motor carriage is provided in FT 105-81-2 and changes thereto. An index of firing tables is maintained in FM 71-6.

183. AUTHORIZED ROUNDS.

a. Authorized ammunition for the M1A1 howitzer is listed in Table I together with essential data, and is shown in figures 189 to 173. Standard nomenclature is used in the listing of authorized rounds. Its use is mandatory for purposes of record, except where the use of the Ammunition Identification Code (A.I.C.) symbol is prescribed to facilitate requisitioning and reporting in the field. Each complete round of assembled ammunition is a specific packing is assigned an A.I.C. symbol. These symbols are published in ONI 11 501's.

b. Interchangeability. Ammunition for the M1A1 howitzer differs from the corresponding rounds for the M1 (self-propelled) howitzer only with respect to the propelling charge. Whereas the adjustable charges for the M1A1 howitzer are made up of seven sections, M1 howitzer rounds have a five-section charge of quick-burning powder. The charges, or sections thereof, are not directly interchangeable. However, the M1 high-explosive rounds for the M1 howitzer are suitable standard for use in the M1A1 howitzer, and can be fired thereon by applying suitable corrections as given in FT 105-81-1 and changes.

184. PREPARATION FOR FIRING.

a. The HE, A.T. round is ready for firing once the packing is removed and the projectile is properly seated in the cartridge case.

b. Fused rounds with adjustable propelling charges require the following preparation before firing:

Technical Manual United States. War Department,1943 *Technical Manual* United States. War Department,1945

Service of the Piece 105-MM Howitzer Motor Carriage M7 Priest Field Manual: FM 6-74 War

Department,2013-09 The 105 mm Howitzer Motor Carriage M7 was an American self propelled artillery vehicle produced during World War II It was called the Priest by the British Army due to the pulpit like machine gun ring The first M7s produced were modified M3 Lee medium tanks The M7 went through a fairly rapid shift from being based on the M3 to having more in common with the M4 Sherman The first major example was an adoption of the M4 s three piece housing single piece casting and suspension In British service some M7s carried a radio set which took the place of twenty four rounds of ammunition In U S service the M7 was a resounding success During the Battle of the Bulge each U S armored division had three battalions of M7s giving them unmatched mobile artillery support A total of 3 490 M7s were built and they proved to be reliable continuing to see service in the U S and allied armies well past World War II Created in 1944 this field manual reveals a great deal about the Priest s design and capabilities The manual prescribes the duties to be performed in the service of the M7 by firing battery personnel Originally labeled restricted this manual was declassified long ago and is here reprinted in book form Care has been taken to preserve the integrity of the text **U.S. Army Vehicle Markings,**

1944 Jean Bouchery,Philippe Charbonnier,2019-06-28 An illustrated guide to the markings used on WWII Era U S Army tanks lorries and Jeeps an invaluable reference for historians modelers and collectors The markings of a 1944 U S Army Jeep are an iconic image of American military and the Second World War But few people know what the distinctive white letters numbers and symbols actually mean This uniquely detailed guide explains how these and other markings were integral to organizing the U S Army on the move U S Army Vehicle Markings 1944 covers all the markings used on American military vehicles to denote their unit and classification It also covers tactical markings and the debarkation codes used in the Normandy landings Hundreds of contemporary photographs are paired with precise color diagrams to show exactly how markings appeared on vehicles including the exact measurements The volume explains all the variations in the use of these markings and includes a chapter on the varieties of camouflage used on vehicles Technical Manual ,1942 Field Manuals United States. War Department,1948

Index of Technical Manuals, Technical Regulations, Technical Bulletins, Supply Bulletins, Lubrications Orders, and Modification Work Orders United States.
