**Enhanced Virtual Prototyping for Heterogeneous Systems** Muhammad Hassan, Daniel Große, Rolf

Drechsler, 2022-09-01 This book describes a comprehensive combination of methodologies that strongly enhance the modern Virtual Prototype VP based verification flow for heterogeneous systems on chip SOC's. In particular, the book combines verification and analysis aspects across various stages of the VP based verification flow, providing a new perspective on verification by leveraging advanced techniques like metamorphic testing, data flow testing, and information flow testing. In addition, the book puts a strong emphasis on advanced coverage driven methodologies to verify the functional behavior of the SOC as well as ensure its security. Provides an extensive introduction to the modern VP based verification flow for heterogeneous SOC's. Introduces a novel metamorphic testing technique for heterogeneous SOC's which does not require reference models. Includes automated advanced data flow coverage driven methodologies tailored for SystemC AMS based VPs. Describes enhanced functional coverage driven methodologies to verify various functional behaviors of RF amplifiers.

*New Trends in Software Methodologies, Tools and Techniques* Hamido Fujita, Roberto Revetria, 2012 Software is the essential enabling means for science and the new economy. It helps us to create a more reliable, flexible and robust society. But software often falls short of our expectations. Current methodologies, tools and techniques remain expensive and are not yet sufficiently reliable, while many promising approaches have proved to be no more than case by case oriented methods. This book contains extensively reviewed papers from the eleventh International Conference on New Trends in software Methodology Tools and Techniques SoMeT\_12 held in Genoa, Italy in September 2012. The conference provides an opportunity for scholars from the international research community to discuss and share research experiences of new software methodologies and techniques, and the contributions presented here address issues ranging from research practices and techniques and methodologies to proposing and reporting solutions for global world business. The emphasis has been on human centric software.
