**Biomimicry-Biofloc-Aquamimicry-An Introspection** Goutam Roy,2020-10-28 The concept of Bio mimicry Bio floc and Aqua mimicry are well established by pioneer scientists and researchers which tell about the philosophy of complete eco system not the isolated individual component of the above said system Therefore always we should keep in mind that success will depend on the strength of each link Each link has its importance and ignorance will lead us to failure whether we ignore it knowingly or unknowingly In the field of aquaculture I observed that the front runners who are directly responsible got various background and mindset During the conversation with them I also observed that the perception developed is devoid of scientific logic and as it percolates creates a lot of deviation from the original principles Hence tried to give introspection into the subject to review the conventional ideas and tried to re explain the science it s logic in a simpler way In some cases I have mentioned the things which I experienced practically I shall be thankful if I can stand beside you through my explanation
