The Legality of Bailouts and Buy Nationals Kamala Dawar, 2017-09-21 This book offers a well argued and insightful critical assessment of the shortcomings of international trade and competition rules in tackling interventionist State measures in the context of an economic crisis Dawar offers an evidence rich account of the challenges that State protectionism creates for international trade liberalisation and for the protection of competition in international markets Her insights will be particularly interesting in the context of current events leading to another surge of State economic interventionism both for academics and for policy makers with an interest in international trade

Dr Albert Sanchez Graells University of Bristol Law School This book bursts the bubble of the self congratulatory attitude that existing institutions which were set up to discipline governments from a race to the bottom on economic policy worked well after the financial crisis These institutions may have prevented tariff wars a big achievement compared to the time of the Great Depression But they went along with the subsidies and state aid that governments put in place after 2007 Such flexibility on economic policy is essential in turbulent times But these institutions are undermined if flexibility comes with a race to the bottom that shifts money away from policies for the more marginalized sections of society At a time when the left behinds are changing the political landscape of the world Kamala s book debunks the myth of the success of existing institutions in containing the economic fallout of the global financial crisis It gives a sobering warning of what might unfold when institutions deal with economic challenges by turning a blind eye to their own rules for checking unfair competition
