Introduction to Investments George A. Christy, John C. Clendenin, 1982

Unforgiving Places Jens Ludwig, 2025-04-21 What if everything we understood about gun violence was wrong In 2007

economist Jens Ludwig moved to the South Side of Chicago to research two big questions Why does gun violence happen and is there anything we can do about it Almost two decades later the answers aren't what he expected Unforgiving Places is Ludwig's revelatory portrait of gun violence in America's most famously maligned city Disproving the popular narrative that shootings are the calculated acts of malicious or desperate people Ludwig shows how most shootings actually grow out of a more fleeting source interpersonal conflict especially arguments By examining why some arguments turn tragic while others don't Ludwig shows gun violence to be more circumstantial and more solvable than our traditional approaches lead us to believe Drawing on decades of research and Ludwig's immersive fieldwork in Chicago including countless hours spent in schools parks playgrounds housing developments courtrooms jails police stations police cars and lots and lots of McDonald's Unforgiving Places is a breakthrough work at the cutting edge of behavioral economics As Ludwig shows progress on gun violence doesn't require America to solve every other social problem first it only requires that we find ways to intervene in the places and the ten minute windows where human behaviors predictably go haywire

**Entrepreneurship in the Catholic Tradition** Anthony G. Percy, 2010-07-29 Entrepreneurship in the Catholic Tradition is a theological and historical exploration of the treatment of entrepreneurship business and commerce in the teaching of the Roman Catholic Church Moving from Scriptural exegesis to modern papal social encyclicals Anthony G Percy shows how Catholic teaching had developed profound insights into the ultimate meaning of entrepreneurship and commerce and invested it with theological philosophical and economic meaning that surpasses many conventional religious and secular interpretations Entrepreneurship is illustrated as being as much a potential contributor to all round integral human flourishing as it is to economic growth and development In this sense Entrepreneurship in the Catholic Tradition challenges the stereotype of the Catholic Church having a negative view of economic liberty and the institutions that enhance its productivity Instead we discover a tradition in which first millennium theologians medieval scholastics and modern Catholic thinkers have thought seriously and at length about the character of free enterprise and its moral and commercial significance
