**Comparative Patriarchy and American Institutions** Francis Feeley,2010-02-19 As Claude L vi Strauss wrote in his book *La pens e sauvage* Paris 1960 biographical and anecdotal history is low powered history which is not intelligible in itself

and only becomes so when it is transferred en bloc to a form of history of a higher power than itself The historian s relative choice is always confined to the choice between history which teaches more and explains less and history which explains more and teaches less This book oscillates between analysis which tries to explain what man is and anecdote which tries to teach what he is capable of becoming What better approach to understanding patriarchy beyond learning the formal dictionary definitions of this term than by examining the richly diverse descriptions of gender relationships found in the following chapters It is the hope of these authors that the recognition of national differences and gender differences will provide new vantage points from which we may gain wider perspectives on our own prejudices and thereby find fulfillment of our aspirations to become more fully human

**Debating in Teaching and Learning English** Ben Wilson, 2024-04-18 This book offers the first full length treatment of the topic of debating as a method of developing English Foreign Language EFL speaking inviting scholars and practitioners to reflect on the demands of the current age for moving forward educational practice While debating is a well known method of dialogic speaking and is widely practiced the extent to which it is integrated in adult TEFL has not been established and an understanding of its affordances for developing foreign language speaking is also limited This book fills the gap in the field of TESOL and applied linguistics on the affordances of debating as a form of dialogic speaking that can promote a holistic understanding and improvement of experience of education and indeed academic outcomes The two main themes that situate the work are those of dialogic speaking and affect at times referred to as humanistic positive psychology and social and emotional learning The book details the experiences of an adult EFL debate group in a private language school in the North of Italy It reports how the participants experience the pedagogy so as to offer insights into it as a form of teaching speaking in adult EFL as well as providing a practical framework with lesson plans and curriculum The affordances of debating emerge as being social cognitive educational and communicative and are discussed alongside the work of language teaching scholars Curran and Freire and more broadly within a Social Constructivist approach to education As such debating is discussed as being a holistic and dialogic form of pedagogy Particular attention to experience often affective is also found to be fundamental in planning and assessing educational outcomes for both teachers and learners
