OWNER'S MANUAL

The push buttons on the Two-Button remote controls can activate garage door openers, entry ways and/or light controls. (Instructions for programming light products are included with those accessories.)

Code switch remote controls are used when several persons are operating the same device. Code switches must be set to matching positions in all remote controls used to operate the same receiver. Use the "smooth" push button exclusively for code switch application. Follow the instructions described and shown below.

Figure 1

Program smooth push button (Code switch application)

1. Slide back the battery compartment cover on the bottom of the remote control housing.
2. Place the old and new remote controls side by side. Make sure you set code switches 1 through 9 in all remotes to matching positions (Figure 2). Use a pen or screwdriver to move the switches to (+), (-) or (0).
3. Replace the battery compartment cover.

Figure 2

Program ribbed push button (Green "learn" button)

1. Press and release the "learn" button on the motor unit. The learn indicator light will glow steadily for 30 seconds.
2. Within 30 seconds, press and hold the ribbed button on the hand-held remote.
3. Release the button when the motor unit light blinks. It has learned the code. If light bulbs are not installed, two clicks will be heard.
