Flight Risk Forrest L. Marion, 2018-10-15 From the 1920s Afghanistan maintained a small air arm that depended heavily upon outside assistance Starting in 2005 the United States led an air advisory campaign to rebuild the Afghan Air Force AAF In 2007 a formal joint combined entity led by a U S Air Force brigadier general began air advisor work with Afghan airmen Between 2007 and 2011 these efforts made modest progress in terms of infrastructures personnel and aircraft accessions and various training courses But by 2010 advisors increasingly viewed AAF command and control C2 as a problem area that required significant improvement if a professional air force was to be built In the spring of 2011 major institutional changes to AAF C2 procedures were being introduced when nine U S air advisors were killed The attack was the worst single incident loss of U S Air Force personnel in a deployed location since 1996 and the worst insider attack since 2001 From the day of that tragic event the cultural chasm between Afghanistan and the West became more apparent This dilemma continues with no end in sight to an air advisory mission of uncertain long term value **The Globe on Paper** Giuseppe Marcocci, 2020 This book is a revised and reworked translation of a book published by Giuseppe Marcocci in 2016 under the enigmatic title *Indios cinesi falsari* c Provided by publisher **Putin's Wars** Marcel H. Van Herpen, 2024-01-03 This fully updated book offers the first systematic analysis of Putin s three wars placing the Second Chechen War the war with Georgia of 2008 and the war with Ukraine in their broader historical context Drawing on extensive original Russian sources Marcel H Van Herpen analyzes in detail how Putin s wars were prepared and conducted and why they led to allegations of war crimes and genocide He shows how the conflicts functioned to consolidate and legitimate Putin s regime and explores how they were connected to a fourth hidden internal war waged by the Kremlin against the opposition The author convincingly argues that the Kremlin relying on the secret services the Orthodox Church the Kremlin youth Nashi and the rehabilitated Cossacks is preparing for an imperial revival most recently in the form of a Eurasian Union An essential book for understanding the dynamics of Putin s regime this study digs deep into the Kremlin s secret long term strategies Readable and clearly argued it makes a compelling case that Putin s regime emulates an established Russian paradigm in which empire building and despotic rule are mutually reinforcing As the first comprehensive exploration of the historical antecedents and political continuity of the Kremlin s contemporary policies Van Herpen s work will make a valuable contribution to the literature on post Soviet Russia and his arguments will stimulate a fascinating and vigorous debate **The Return of Ordinary Capitalism** Sanford Schram, 2015 The Return of Ordinary Capitalism examines neoliberalism as the prevailing political economic logic of our time How we got to this point what are the effects on the economy politics and public policymaking and what can and should be done about it are the key questions addressed **Contesting History** Jeremy Black, 2014-03-13 Contesting History is an authoritative guide to the positive and negative applications of the past in the public arena and what this signifies for the meaning of history more widely Using a global non Western model Jeremy Black examines the employment of history by the state the media the

Halper,2014-04-01 Tibet s enduring myth animated by the tales of Himalayan adventurers British military expeditions and the novel Lost Horizon remains an inspirational fantasy a modern morality play about the failure of brutality to subdue the human spirit Tibet also exercises immense soft power as one of the lenses through which the world views China This book traces the origins and manifestations of the Tibetan myth as propagated by Younghusband Madam Blavatsky Himmler Acheson and Roosevelt The authors discuss how after WW2 Tibet isolated misunderstood and with a tiny elite unschooled in political military realities misread the diplomacy between its two giant neighbours India and China forlornly hoping London or Washington might intervene China s People s Liberation Army sought nothing less than to deconstruct traditional Tibet unseat the Dalai Lama and absorb this vast region into the People s Republic and Lhasa succumbed to China s invasion in 1950 Drawing on declassified CIA and Chinese documents the authors reveal Mao s collusion with Stalin to subdue Tibet double dealing by Nehru the brilliant diplomacy of Chou en Lai and how Washington see sawed between the China lobby who insisted there be no backing for an independent Tibet and Presidents Truman and later Eisenhower who initiated a covert CIA programme to support the Dalai Lama and resist Chinese occupation It is an ignoble saga with few if any heroes other than ordinary Tibetans The Limits to Capital in Spain G. Ashiagbor,2019-07-25 The aim of this book is to explore labour law s conceptual and normative narrative If labour law is informed by the wider political and economic landscape within which it operates then given the declining prevalence of the post war model of full employment within a formal welfare state regime what shape does or should labour law assume in response to the transformation of the political economy in countries of the global North Correspondingly what is the proper role to be played by labour law and labour relations institutions in the development process within industrialising countries of the global South where informal employment has long been and remains the predominant form Drawing on the expertise

of leading labour law scholars this collection addresses those questions by examining the growth and continued prevalence of informality Offering research that is both empirically grounded and doctrinally astute the book explores the changing character of labour law in the global North and South **Storying the Public Intellectual** Pat Sikes,Yvonne

The English and Their History Robert Tombs, 2015-10-27 A New York Times 2016 Notable Book Robert Tombs's momentous *The English and Their History* is both a startlingly fresh and a uniquely inclusive account of the people who have a claim to be the oldest nation in the world The English first came into existence as an idea before they had a common ruler and before the country they lived in even had a name They have lasted as a recognizable entity ever since and their defining national institutions can be traced back to the earliest years of their history The English have come a long way from those first precarious days of invasion and conquest with many spectacular changes of fortune Their political economic and cultural contacts have left traces for good and ill across the world This book describes their history and its meanings from their beginnings in the monasteries of Northumbria and the wetlands of Wessex to the cosmopolitan energy of today's England Robert Tombs draws out important threads running through the story including participatory government language law religion the land and the sea and ever changing relations with other peoples Not the least of these connections are the ways the English have understood their own history have argued about it forgotten it and yet been shaped by it These diverse and sometimes conflicting understandings are an inherent part of their identity Rather to their surprise as ties within the United Kingdom loosen the English are suddenly embarking on a new chapter *The English and Their History* the first single volume work on this scale for more than half a century and which incorporates a wealth of recent scholarship presents a challenging modern account of this immense and continuing story bringing out the strength and resilience of English government the deep patterns of division and also the persistent capacity to come together in the face of danger

Massacre in West Cork: The Dunmanway and Ballygroman Killings Barry Keane, 2014-01-17 The deaths in and around Dunmanway in 1922 have always been shrouded in rumour and supposition This book seeks to get to the bottom of them One thing is certain Captain Herbert Woods shot Commandant Michael O'Neill of the IRA on the stairs of Ballygroman House at 2.30a.m. on the 26th April and killed him Who was Herbert Woods and why did he shoot an unarmed man Who was Michael O'Neill and what was he doing inside the house at that hour of the morning What connection had this event to the killing of ten Protestants in West Cork over the next three nights Are they connected with the killing of four British soldiers in Macroom on the same day What was the effect on the local Protestant minority What happened after Herbert Woods and his Hornibrook relations were arrested by the Irish Republican Police and disappeared This book attempts to answer all these questions Using previously overlooked evidence it proves that the real story is a simple one of revenge It directly challenges claims of sectarianism and British involvement presenting a true story of these appalling events

The Optimistic Leftist Ruy Teixeira, 2017-03-07 Advances an analysis that should encourage progressives be cautionary for conservatives and engage and enlighten everyone who cares about America's political and economic future James Fallows national correspondent *The Atlantic* A tonic not because it will make

you feel better although it might but because he makes a powerful provocative and persuasive case that progressives are in a better position than they realize to make our world better E J Dionne Jr author of *Why the Right Went Wrong* The words optimism and the left do not seem to go together very well these days The dominant view on the left reinforced by the election of Donald Trump is as follows 1 progress in today s world has largely stopped and in many ways reversed 2 the left is weak and at the mercy of a rapacious capitalism and a marauding right and 3 the outlook for the future is bleak with ordinary citizens suffering even more deprivation and the planet itself sliding inexorably toward catastrophe But all these propositions are wrong It is not the case that progress has stopped Today we live in a freer more democratic less violent and more prosperous world than we ever have before It is not the case that the left is at the mercy of the right The form of the left is changing but its numbers are strong and growing It remains a vital force the vital force for reforming capitalism And it is not the case that the future of humanity is bleak The problems we face today are solvable and moreover are likely to be solved in the coming decades Life for ordinary citizens should improve dramatically over the course of the 21st century It is not just that these pessimistic propositions are wrong They also do real harm to the left by undermining its appeal Pessimism makes people less likely to believe in positive change not more likely It is time for the left to realize that their romance with pessimism is a bug not a feature of their current practice There is no substitute for optimism and an economic climate that promotes optimism The time has come as Ruy Teixeira argues in this book for the optimistic leftist [A Military History of the New World Disorder, 1989–2022](#) Jonathan M. House, 2025-05-06 The collapse of the Soviet Union in 1989 freed the world of the political and military perils and imperatives of the Cold War But it also introduced a whole new constellation of risks and challenges as Jonathan M House brings into sharp relief in *A Military History of the New World Disorder 1989–2022* the third and final volume in his comprehensive trilogy of military developments around the globe since the Second World War What followed the breaking of the Cold War s grip on global affairs was not so much a new world order as a new world disorder as the United States and its allies suddenly found themselves without the sort of coherent grand strategy previously deployed to contain the Soviet Union Focusing largely but not exclusively on the US House surveys subsequent developments in military strategy and operations the processes by which politicians and military leaders of the major powers designed organized resourced and then employed military forces to conduct or deter conflicts His overview ranges from conflicts in Iraq and Afghanistan to American interventions in Panama Somalia former Yugoslavia and Haiti Israel vs Hezbollah in Lebanon and the resurgence of the Russian military in Syria Georgia and Ukraine Throughout House provides a compelling analysis of recent military developments including the strengths and weaknesses of employing precision guided munitions counter insurgency techniques and other controversial methods of current warfare His work reveals the complex relationship between national political decisions to commit armed forces to conflicts and the results on the battlefield and offers a timely perspective on military power and practice in the current day **Importing EU Norms** Annika Björkdahl, Natalia

Chaban, John Leslie, Annick Masselot, 2015-03-20 This interdisciplinary work presents a conceptual framework and brings together constructivist and rationalist accounts of how EU norms are adopted adapted resisted or rejected These chapters provide empirical cases and critical analysis of a rich variety of norm takers from EU member states European and non European states including the rejection of EU norms in Russia and Africa as well as adaptation of EU practices in Australia and New Zealand Chapters on China ASEAN and the Czech Republic demonstrate resistance to EU norm export This volume probes differences in willingness to adopt or adapt norms between various actors in the recipient state and explores such questions as How do norm takers perceive of the EU and its norms Is there a normative fit between EU norms and the local normative context Similarly how do EU norms impact recipients interests and institutional arrangements First the authors map EU norm export strategies and approaches as they affect norm takers Second the chapters recognize that norm adoption adaption resistance or rejection is a product of interaction and a relationship in which interdependence asymmetry and power play a role Third we see that domestic circumstances within norm takers condition the reception of norms This book s focus on norm takers highlights the reflexive nature of norm diffusion and that nature has implications for the EU itself as a norm exporter Anyone with an interest in the research agenda on norm diffusion normative power and the EU s normative dialogue with the world will find this book highly valuable including scholars policy makers and students of subjects including political science European studies international relations and international and EU law

The Making of China's Foreign Policy in the 21st century Suisheng Zhao, 2018-02-02 This book is a study of the making of foreign policy of China a rising power in the 21st century It examines three sets of driving forces behind China s foreign policy making One is historical sources including the selective memories and reconstruction of the glorious empire with an ethnocentric world outlook and the century of humiliation at the hands of foreign imperialist powers The second set is domestic institutions and players particularly the proliferation of new party and government institutions and players such as the national security commission foreign policy think tanks media and local governments The third set is Chinese perception of power relations particularly their position in the international system and their position relations with major powers This book consists of articles from the Journal of Contemporary China

Working the System in Sub-Saharan Africa Corrado Tornimbeni, 2014-07-08 What is the extent to which democracy good governance liberal citizenship and development are negotiated and shaped in sub Saharan African countries in the context of the globalised world Is this a characteristic of the current historical era alone Do global ideas about politics and development in sub Saharan Africa take on new meanings in light of local circumstances and visions The works presented in this volume offer context based analyses that contribute to showing how local practices of citizenship democracy and development in sub Saharan Africa have been working the system of global ideas on good governance policies and development and how this system also builds on the way in which historically local narratives are presented to actors in the international context Democracy and good governance are considered the

universally shared paradigms shaping policy prescriptions and development practices in the context of the current globalised world Space for negotiating these recipes at the local level is considered to be particularly narrow especially in sub Saharan Africa but it is also believed that international paradigms are reshaped into peculiar forms when implemented under local circumstances From the early 1990s onwards these processes have drawn the attention of academics as well as the wider public but rarely is their historical dimension taken into account the Africa world nexus in politics and development is not a characteristic of the current global world alone as is too often assumed Adding an historical perspective to the analysis of the multilevel interconnections between local power relations the politics of colonial and independent rule and the global discourses of democracy citizenship and development will contribute to a sound theoretical stance in addressing what is considered the main feature of current times globalisation and its flows That is what this volume tries to accomplish It does so by developing three themes in particular the trajectory of the colonial and independent nation state and its impact on the local and national politics of citizenship identity and development the way global ideas on development are converted into practice or how they are interpreted and negotiated at local level and issues of belonging and identity in relation to concepts and practices of political control Case studies will include Portuguese colonialism Mozambique Tanzania Zimbabwe Senegal Casamance and Uganda
