Revolutionary Bodies K. S. Batmanghelichi, 2020-12-10 Gender and sexuality in modern Iran is frequently examined through the prism of nationalist symbols and religious discourse from the late nineteenth and early twentieth centuries In

this book Kristin Soraya Batmanghelichi takes a different approach by interrogating how normative ideas of women's bodies in state religious and public health discourses have resulted in the female body being deemed as immodest and taboo Through a diverse blend of sources a popular cultural women's journal a red light district cases studies of temporary marriages iconic public statues and an HIV AIDS advocacy organization in Tehran this work argues that conceptions of gender and sexuality have been mediated in public discourse and experienced and modified by women themselves over the past thirty years of the Islamic Republic Expanding upon existing philosophical theory technological research and scholarship on gender and sexuality in Iran this book focuses much needed attention on under studied marginalized communities such as widows living with HIV This work interrogates how bodily technologies are constructed discursively and socially in Iran and the values and perspectives which are incorporated in them

Women in Bone Research Monica De Mattei, Michaela Tencerova, Katherine A. Staines, 2025-04-16 To celebrate International Women's Day we are delighted to present the inaugural Women in Bone Research series of article collections At present less than 30% of researchers worldwide are women Long standing biases

and gender stereotypes are discouraging girls and women away from science related fields and STEM research in particular. Science and gender equality are however essential to ensure sustainable development as highlighted by UNESCO. In order to change traditional mindsets, gender equality must be promoted, stereotypes defeated, and girls and women should be encouraged to pursue STEM careers. Therefore, *Frontiers in Endocrinology* is proud to offer this platform to promote the work of women scientists across all fields of Bone Research. The work presented here highlights the diversity of research and presents advances in theory, experiment, and methodology, with particular preference given to studies focusing on female biology or applications for women. Please note to be considered for this collection, the first or last author should be a researcher who identifies as a woman.

[Vagabond Princess](#) Ruby Lal, 2024-01-01. A captivating biography of one of the world's greatest adventurers, the itinerant Mughal Princess Gulbadan, based on her long forgotten memoir. Longlisted for the 2024 Cundill History Prize, Ruby Lal coaxes the remarkable Gulbadan out from the shadows of history. Sara Wheeler, *Wall Street Journal*. Situated in the early decades of the magnificent Mughal Empire, this first ever biography of Princess Gulbadan offers an enthralling portrait of a charismatic adventurer and unique pictures of the multicultural society in which she lived. Following a migratory childhood that spanned Kabul and north India, Gulbadan spent her middle years in a walled harem established by her nephew Akbar to showcase his authority as the Great Emperor. Gulbadan longed for the exuberant itinerant lifestyle she'd known. With Akbar's blessing, she led an unprecedented sailing and overland voyage and guided harem women on an extended pilgrimage in Arabia. Amid increasing political tensions, the women's un-Islamic behavior forced their return, lengthened by a dramatic shipwreck in the Red Sea. Gulbadan wrote a book upon her return, the only extant work of prose by a woman of the age. A portion of it is missing, either lost to history or redacted by officials who did not want the princess to have her say. *Vagabond Princess* contemplates the story of the missing pages and breathes new life into a daring historical figure. It offers a portal to a richly complex world rife with movement and migration, where women's conviviality, adventure, and autonomies shine through.
