## **Engineering Paper Pattern Of Pune University 2013:**

**ISOM 2013 Proceedings (GIAP Journals, India)** Global Institutes Amritsar and University of Mauritius, **Advances in Civil Engineering and Building Materials** Shuenn-Yih Chang, Suad Khalid Al Bahar, Jingying Zhao, 2012-10-31 Advances in Civil Engineering and Building Materials presents the state of the art development in Structural Engineering Road Bridge Engineering Geotechnical Engineering Architecture Urban Planning Transportation Engineering Hydraulic Engineering Engineering Management Computational Mechanics Construction Technology Buildi **Current Trends in the Representation of Physical Processes in Weather and Climate Models** David A. Randall, J. Srinivasan, Ravi S. Nanjundiah, Parthasarathi Mukhopadhyay, 2019-01-31 This book focuses on the development of physical parameterization over the last 2 to 3 decades and provides a roadmap for its future development It covers important physical processes convection clouds radiation land surface and the orographic effect The improvement of numerical models for predicting weather and climate at a variety of places and times has progressed globally However there are still several challenging areas which need to be addressed with a better understanding of physical processes based on observations and to subsequently be taken into account by means of improved parameterization And this is all the more important since models are increasingly being used at higher horizontal and vertical resolutions Encouraging debate on the cloud resolving approach or the hybrid approach with parameterized convection and grid scale cloud microphysics and its impact on models intrinsic predictability the book offers a motivating reference guide for all researchers whose work involves physical parameterization problems and numerical models SOUVENIR of 3rd International Science Congress ISC-2013 Prof. Dipak Sharma, International Science Congress Association organized 3rd International Science Congress ISC 2013 with Innovation with Global Responsibility as its Focal Theme ISC 2013 is divided in 20 sections A total number of 900 Research Papers and 1000 registrations from 36 countries all over the world have been received They are mainly from India Iran Sudan Iraq South Africa Phillipines Pakistan Nighana Erode Czech Republic Bangladesh Swaziland Jordan USA Thailand Japan Malaysia Kazakhstan UK Colombia Nepal Italy Bulgariya Cameroun France Greece Kazakhstan Korea Lithuania Nigeria Poland Romania Slovakia Ukraine Venezuela and Turkey **Proceedings of Data Analytics and Management** Deepak Gupta, Zdzislaw Polkowski, Ashish Khanna, Siddhartha Bhattacharyya, Oscar Castillo, 2022-01-04 This book includes original unpublished contributions presented at the International Conference on Data Analytics and Management ICDAM 2021 held at Jan Wyzykowski University Poland during June 2021 The book covers the topics in data analytics data management big data computational intelligence and communication networks The book presents innovative work by leading academics researchers and experts from industry which is useful for young researchers and students Proceedings of First International Conference on Smart System, Innovations and Computing Arun K. Somani, Sumit Srivastava, Ankit Mundra, Sanyog Rawat, 2018-01-08 The edited volume contains original papers contributed to 1st International Conference on

Smart System Innovations and Computing SSIC 2017 by researchers from different countries The contributions focuses on two main areas i e Smart Systems Innovations which includes applications for smart cities smart grid social computing and privacy challenges with their theory specification design performance and system building And second Computing of Complex Solutions which includes algorithms security solutions communication and networking approaches The volume provides a snapshot of current progress in related areas and a glimpse of future possibilities This volume is useful for researchers Ph D students and professionals working in the core areas of smart systems innovations and computing

**Computational Tools and Techniques for Biomedical Signal Processing** Singh, Butta,2016-08-12 Biomedical signal processing in the medical field has helped optimize patient care and diagnosis within medical facilities As technology in this area continues to advance it has become imperative to evaluate other ways these computation techniques could be implemented Computational Tools and Techniques for Biomedical Signal Processing investigates high performance computing techniques being utilized in hospital information systems Featuring comprehensive coverage on various theoretical perspectives best practices and emergent research in the field this book is ideally suited for computer scientists information technologists biomedical engineers data processing specialists and medical physicists interested in signal processing within medical systems and facilities

**Safety, Security, and Reliability of Robotic Systems** Brij B. Gupta,Nadia Nedjah,2020-12-30 With the increasing demand of robots for industrial and domestic use it becomes indispensable to ensure their safety security and reliability Safety Security and Reliability of Robotic Systems Algorithms Applications and Technologies provides a broad and comprehensive coverage of the evolution of robotic systems as well as industrial statistics and future forecasts First it analyzes the safety related parameters of these systems Then it covers security attacks and related countermeasures and how to establish reliability in these systems The later sections of the book then discuss various applications of these systems in modern industrial and domestic settings By the end of this book you will be familiarized with the theoretical frameworks algorithms applications technologies and empirical research findings on the safety security and reliability of robotic systems while the book s modular structure and comprehensive material will keep you interested and involved throughout This book is an essential resource for students professionals and entrepreneurs who wish to understand the safe secure and reliable use of robotics in real world applications It is edited by two specialists in the field with chapter contributions from an array of experts on robotics systems and applications

**Biomedical Signal and Image Processing in Patient Care** Kolekar, Maheshkumar H.,Kumar, Vinod,2017-08-11 In healthcare systems medical devices help physicians and specialists in diagnosis prognosis and therapeutics As research shows validation of medical devices is significantly optimized by accurate signal processing Biomedical Signal and Image Processing in Patient Care is a pivotal reference source for progressive research on the latest development of applications and tools for healthcare systems Featuring extensive coverage on a broad range of topics and perspectives such as telemedicine human machine interfaces

and multimodal data fusion this publication is ideally designed for academicians researchers students and practitioners seeking current scholarly research on real life technological inventions      Big Data Processing Using Spark in Cloud Mamta Mittal,Valentina E. Balas,Lalit Mohan Goyal,Raghvendra Kumar,2018-06-16 The book describes the emergence of big data technologies and the role of Spark in the entire big data stack It compares Spark and Hadoop and identifies the shortcomings of Hadoop that have been overcome by Spark The book mainly focuses on the in depth architecture of Spark and our understanding of Spark RDDs and how RDD complements big data's immutable nature and solves it with lazy evaluation cacheable and type inference It also addresses advanced topics in Spark starting with the basics of Scala and the core Spark framework and exploring Spark data frames machine learning using Mllib graph analytics using Graph X and real time processing with Apache Kafka AWS Kinesis and Azure Event Hub It then goes on to investigate Spark using PySpark and R Focusing on the current big data stack the book examines the interaction with current big data tools with Spark being the core processing layer for all types of data The book is intended for data engineers and scientists working on massive datasets and big data technologies in the cloud In addition to industry professionals it is helpful for aspiring data processing professionals and students working in big data processing and cloud computing environments      *Spatial Modelling and Failure Analysis of Natural and Engineering Disasters through Data-based Methods* Faming Huang,Jinsong Huang,Wei Chen,Jinquan Liu,2022-10-07      Advanced Computing Deepak Garg,V. A. Narayana,P. N. Suganthan,Jaume Anguera,Vijaya Kumar Koppula,Suneet Kumar Gupta,2023-07-13 This two volume set constitutes reviewed and selected papers from the 12th International Advanced Computing Conference IACC 2022 held in Hyderabad India in December 2022 The 72 full papers and 6 short papers presented in the volume were thoroughly reviewed and selected from 415 submissions The papers are organized in the following topical sections AI in industrial applications application of AI for disease classification and trend analysis design of agricultural applications using AI disease classification using CNN innovations in AI system security and communication using AI use of AI in human psychology use of AI in music and video industries      Investment Strategies in Emerging New Trends in Finance Reza Gharoie Ahangar,Asma Salman,2021-04-14 Investment and portfolio strategies are some of the most exciting topics in finance This book presents the most up to date topics and techniques in finance to facilitate the investment process for researchers and investors in selecting appropriate investment strategies with the emergence of new issues and concepts in financial areas This book contains nine chapters divided into three sections The first section Investment and Portfolio Strategies discusses different investment strategies in portfolio selection The second section Behavioral Finance and Investment Decisions examines the application of behavioral finance in investment decisions The last section Emerging New Trends in Finance includes some new and interesting finance topics that can depict our vision for the future arena of finance      *Applied Information Processing Systems* Brijesh Iyer,Debashis Ghosh,Valentina Emilia Balas,2021-07-20 This book is a collection of selected high quality research papers presented at the International Conference

on Computing in Engineering and Technology ICCET 2021 organized by Dr Babasaheb Ambedkar Technological University Lonere India during January 30 31 2021 Focusing on frontier topics and next generation technologies it presents original and innovative research from academics scientists students and engineers alike The theme of the conference is Applied Information Processing System     Industrial Solid Wastes A. D. Patwardhan,2013-01-01 Industrial solid wastes unlike liquid effluents and gaseous emissions receive relatively less attention in terms of treatment reuse recycle and recovery of useful by products These solid wastes have great potential for recovery and reuse Predominantly organic wastes can be effectively treated by biological means to yield useful end products like methane gas as fuel and digested slurry as soil conditioner Inert materials like plastics are effectively blended with other building materials thereby improving the quality of the finished product and at least partially solving the problem of disposal of plastics Inorganic wastes are excellent candidates for recovery of reusable building materials like sand and fine aggregate Recycling of useful components from e wastes goes a long way in reducing environmental pollution by toxic and hazardous wastes This book places before the reader different ways and means used by scientists and engineers to minimize pollution of our natural resources and their overexploitation

**Proceedings of the 2nd World Congress on Integrated Computational Materials Engineering (ICME)** Mei Li,Carelyn Campbell,Katsuyo Thornton,Elizabeth Holm,Peter Gumbsch,2016-12-19 This book represents a collection of papers presented at the 2nd World Congress on Integrated Computational Materials Engineering ICME a specialty conference organized by The Minerals Metals Materials Society TMS     **Frontier Computing** Jason C Hung,Neil Y. Yen,Kuan-Ching Li,2016-07-28 This volume contains the proceedings of the 4th International Conference on Frontier Computing FC 2015 Bangkok Thailand September 9 11 2015 and brings together state of the art results covering many aspects of emerging computer science and information technology from international academic and industrial researchers FC 2015 aimed at providing an open forum to reach a comprehensive understanding of the recent advances and developing trends in information technology computer science and engineering with themes under the scope of communication networks business intelligence and knowledge management web intelligence and any related fields that prompt the development of information technology Contributions cover a wide spectrum of topics database and data mining networking and communications web and internet of things embedded system soft computing social network analysis security and privacy optics communication and ubiquitous pervasive computing Many papers have shown great academic potential and value and in addition indicate promising directions of research in the focused realm of this conference series Readers including students researchers and industry professionals will benefit from the results presented in this book and it provides indicators for emerging trends for those starting their research careers     Biometrics in a Data Driven World Sinjini Mitra,Mikhail Gofman,2016-12-01 Biometrics in a Data Driven World Trends Technologies and Challenges aims to inform readers about the modern applications of biometrics in the context of a data driven society to familiarize them with the rich history of

biometrics and to provide them with a glimpse into the future of biometrics The first section of the book discusses the fundamentals of biometrics and provides an overview of common biometric modalities namely face fingerprints iris and voice It also discusses the history of the field and provides an overview of emerging trends and opportunities The second section of the book introduces readers to a wide range of biometric applications The next part of the book is dedicated to the discussion of case studies of biometric modalities currently used on mobile applications As smartphones and tablet computers are rapidly becoming the dominant consumer computer platforms biometrics based authentication is emerging as an integral part of protecting mobile devices against unauthorized access while enabling new and highly popular applications such as secure online payment authorization The book concludes with a discussion of future trends and opportunities in the field of biometrics which will pave the way for advancing research in the area of biometrics and for the deployment of biometric technologies in real world applications The book is designed for individuals interested in exploring the contemporary applications of biometrics from students to researchers and practitioners working in this field Both undergraduate and graduate students enrolled in college level security courses will also find this book to be an especially useful companion

Computational Intelligence and Information Technology Vinu Das,Nessy Thankachan,2013-01-02 This book constitutes the proceedings of the First International Conference on Computational Intelligence and Information Technology CIIT 2011 held in Pune India in November 2011 The 58 revised full papers 67 revised short papers and 32 poster papers presented were carefully reviewed and selected from 483 initial submissions The papers are contributed by innovative academics and industrial experts in the field of computer science information technology computational engineering mobile communication and security and offer a stage to a common forum where a constructive dialog on theoretical concepts practical ideas and results of the state of the art can be developed
