

REACTION PAPER (03 VIDEO 1)

Walang Maliwan is a documentary film by Kara David produced by iWitness under GMA Network, this is all about the number of students at risk of dropping out of school at Burgos East Elementary School, San Guillermo, Isabella. The documentary shows struggles of students to their way to school every day, where they have to cross to river and walk a mile to reach the school, which has become one of the reasons why students do not come to school to continue their studies. Everyone should have the right to education; It was a lack of child support, not poverty, that killed their dreams.

After watching the video, I was mixed emotion of how it made me realize about how privileged an I am blessed in life, I have privilege to go to school or used an a gadget for online class, I have all the means for a quality of education; I do not have to grind to enroll myself in a decent school; and yet I still have the audacity to complain about minor inconveniences. and I think we're even luckier because we live in the city, but I'm more impressed with the people who live in the province because they cross mountains, rivers and other things that can ruin their lives to get to and be able to just study at the school that exists in their area and I salute the teachers that they will put themselves at the risk of being able to teach only the children who live in remote places even if they cross rivers, forests, and mountains.

But what is sad in our time now is that everyone is online unlike before face to face, but the department of education has had thought of a solution, to have radio learning and can be watched on tv, a module for those far from the city. and young people say that as much as we can, no child will be left unable to study during the pandemic no student left behind. We can resist and be able to finish the study even pandemic
