

Why is language learning beyond the classroom important?

- Deconstruction of traditional classroom instruction – self-access centres, distance learning, workplace learning, learning for practical purposes, etc.
- Globalization and the shrinking world – media technologies and mobility; access to ‘authentic’ language (Kramsch 2014)
- Learners often begin in the classroom and continue elsewhere
- Pickard (1995) – learners attribute high levels of proficiency to learning beyond the classroom

Language Learning Beyond The Classroom:

Language Learning Beyond the Classroom David Nunan, Jack C. Richards, 2015-01-30 This volume presents case studies of language learning beyond the classroom. The studies draw on a wide range of contexts from North and South America to Europe and the Asia Pacific region. Each provides principled links between theory, research and practice. While out of class learning will not replace the classroom, ultimately all successful learners take control of their own learning. This book shows how teachers can help learners bridge the gap between formal instruction and autonomous language learning. Although English is the primary focus of most chapters, there are studies on a range of other languages including Spanish and Japanese.

Autonomous Language Learning with Technology Chun Lai, 2017-06-29 This book looks beyond the classroom and focuses on out of class autonomous use of technology for language learning, discussing the theoretical frameworks, key findings and critical issues. The proliferation of digital language learning resources and tools is forcing language education into an era of unprecedented change. The book will stimulate discussions on how to support language learners to construct quality autonomous technology-mediated out of class learning experience outside the classroom and raise greater awareness of and research interest in this field. Out of class learning constitutes an important context for human development and active engagement in out of class activities is associated with successful language development. With convenient access to expanded resources, venues and learning spaces, today's learners are not as dependent on in-class learning as they used to be. Thus a deeper understanding of the terrain of out of class learning is of increasing significance in the current educational era. Technology is part and parcel of out of class language learning and has been a primary source that learners actively use to construct language learning experience beyond the classroom. Language learners of all ages around the world have been found to actively utilize technological resources to support their language learning beyond formal language learning contexts. Insights into learners' out of class autonomous use of technology for language learning are essential to our understanding of out of class learning and inform educators on how language learners could be better supported to maximize the educational potentials of technology to construct quality out of class learning experience.

Language beyond the Classroom Jann Purdy, 2018-04-18 *Language beyond the Classroom* is an edited volume of essays that offers detailed guides for developing, implementing and evaluating service learning programs for a variety of languages. Contributions here present civic engagement programs for several languages including French, German, Russian and Spanish with curricula that can be adapted to any language program. The authors of each essay engage with the growing pedagogical emphasis on experiential learning, providing theoretical and practical advice, including syllabi for language educators. *Language beyond the Classroom* is a timely exploration of the variety and richness of service learning in language instruction and contributes to a 21st century emphasis on community engagement and cultural contextualization in second language pedagogy.
