and illness Many report serious concerns about the quality of the work due to understaffing high turnover poor training and experience inadequate cleaning supplies and on the job injuries Zuberi also presents policy recommendations for improving patient safety by reducing the risk of hospital acquired infection and ameliorating the work conditions and quality of life of hospital support workers He makes the case that hospital outsourcing exemplifies the trend towards low road service sector jobs that threatens to undermine society s social health as well as the physical health and well being of patients in health care settings globally
