Ritchie, 2005-03-15 Donald Ritchie offers a vibrant chronicle of news coverage in our nation's capital from the early days of radio and print reporting and the heyday of the wire services to the brave new world of the Internet Beginning with 1932 when a newly elected FDR energized the sleepy capital Ritchie highlights the dramatic changes in journalism that have occurred in the last seven decades We meet legendary columnists including Walter Lippmann Joseph Alsop and Drew Pearson as well as the great investigative reporters from Paul Y Anderson to the two green Washington Post reporters who launched the political story of the decade Woodward and Bernstein We read of the rise of radio news fought tooth and nail by the print barons and of such pioneers as Edward R Murrow H V Kaltenborn and Elmer Davis Ritchie also offers a vivid history of TV news from the early days of Meet the Press to Huntley and Brinkley and Walter Cronkite to the cable revolution led by C SPAN and CNN In addition he compares political news on the Internet to the alternative press of the 60s and 70s describes how black reporters slowly broke into the white press corps helped mightily by FDR's White House discusses path breaking woman reporters such as Sarah McClendon and Helen Thomas and much more From Walter Winchell to Matt Drudge the people who cover Washington politics are among the most colorful and influential in American news *Reporting from Washington* offers an unforgettable portrait of these figures as well as of the dramatic changes in American journalism in the twentieth century **Encyclopedia of journalism. 6. Appendices** Christopher H. Sterling, 2009-09-25 The six volume *Encyclopedia of Journalism* covers all significant dimensions of journalism including print broadcast and Internet journalism US and international perspectives history technology legal issues and court cases ownership and economics *Covering Congress* Everette Dennis, 2018-05-04 Observers of media government relations most often think first of conflicts with the

executive branch yet interactions between Congress and the media have been extensive and varied since the first Washington correspondents began sending dispatches from the sessions of Congress. In recent years the relationship between Congress and the news media has grown more complex. Coverage of Congress by the print and electronic media is extensive. At the same time Congress has increasing power to make communications policy that will have an important impact on the ability of the media to conduct their affairs both economically and politically. Covering Congress explores those aspects of the relationship between the media and Congress that shape the news that reaches an information seeking public. The contributors consider Congress as the source of much news as well as a great deal of self promotion. They note there is neither a broad nor deep understanding of our national legislature in the United States. Contributors try to remedy this shortcoming by looking at the overall picture the media scene on Capitol Hill, the messages that reach beyond Washington and the history of relations between the Congress and the press. They discuss such issues as the relationship Newt Gingrich has forged between his office and the media, perhaps at his own peril, the importance of speed over substance when reporting from Capitol Hill, the unflattering image of Congress as depicted in political cartoons and the unparalleled power wielded by Speaker of the House Sam Rayburn when he dealt with the national media. Congress depends on the media to reach the public but also has considerable muscle to shape its media relations when it has strong leadership and a coherent plan. It usually lacks these but Congress does much to try to project a friendly face to the public through the media, facilitating interviews, its Capitol Hill radio and television studios. Regardless of what happens in any particular election it is clear that Congress is fully alert to the modern communications age and that the consequences of this encounter are likely to be accentuated in the years ahead. Covering Congress is a necessary addition to the libraries of communications scholars, media specialists, political scientists, historians and sociologists.
