Subprime Attention Crisis Tim Hwang, 2020-10-13 From FSGO x Logic a revealing examination of digital advertising and the internet s precarious foundation In Subprime Attention Crisis Tim Hwang investigates the way big tech financializes attention In the process he shows us how digital advertising the beating heart of the internet is at risk of collapsing and that its potential demise bears an uncanny resemblance to the housing crisis of 2008 From the unreliability of advertising numbers and the unregulated automation of advertising bidding wars to the simple fact that online ads mostly fail to work Hwang demonstrates that while consumers attention has never been more prized the true value of that attention itself much like subprime mortgages is wildly misrepresented And if online advertising goes belly up the internet and its free services will suddenly be accessible only to those who can afford it Deeply researched convincing and alarming Subprime Attention Crisis will change the way you look at the internet and its precarious future FSG Originals Logic dissects the way technology
