Lamb,2024-12-15 Scholars have long noted that comments by the author or editor often referred to as narrative asides or parentheses are frequent in the Fourth Gospel The Function of Narrative Comments in the Gospel of John A Literary and Linguistic Analysis is a comprehensive guide to this significant feature In the vein of Gilbert Van Belle s *Les Parenthèses dans l'Évangile de Jean* 1985 Lamb provides a detailed analysis of the terminology definition and categorization of these comments and interacts extensively with existing scholarship He looks at the role of the comments in the Gospel s composition assesses their function using insights from literary theory dramatic theory and sociolinguistics and makes comparisons with OT historical writings the Synoptic Gospels and the works of Herodotus and Thucydides He concludes that the narrative comments are an integral part of the text which reflect the authority of the author and that they have significant implications for our exegesis of the Gospel *A Greek and English lexicon to the New Testament.
