Anaedozie, 2021-03-09 In *Africans at Home and in the United States One People One Problem One Destiny* Emeka C Anaedozie examines Pan African cultural and intellectual history focusing on sociocultural commonalities and challenges facing African people To this end Dr Anaedozie argues that since oppression divided Africans Pan Africanism is the natural antidote to the subjugation that forcefully separated enslaved and colonized Africans **Teaching White Supremacy** Donald Yacovone, 2022-09-27 A powerful exploration of the past and present arc of America's white supremacy from the country's inception and Revolutionary years to its 19th century flashpoint of civil war to the Civil Rights movement of the 1960s and today's Black Lives Matter The most profoundly original cultural history in recent memory Henry Louis Gates Jr Harvard University Stunning timely an achievement in writing public history Teaching White Supremacy should be read widely in our roiling debate over how to teach about race and slavery in classrooms David W Blight Sterling Professor of American History Yale University author of the Pulitzer Prize winning *Frederick Douglass Prophet of Freedom* Donald Yacovone shows us the clear and damning evidence of white supremacy's deep seated roots in our nation's educational system through a fascinating in depth examination of America's wide assortment of texts from primary readers to college textbooks from popular histories to the most influential academic scholarship Sifting through a wealth of materials from the colonial era to today Yacovone reveals the systematic ways in which this ideology has infiltrated all aspects of American culture and how it has been at the heart of our collective national identity Yacovone lays out the arc of America's white supremacy from the country's inception and

Revolutionary War years to its nineteenth century flashpoint of civil war to the civil rights movement of the 1960s and today's Black Lives Matter. In a stunning reappraisal the author argues that it is the North not the South that bears the greater responsibility for creating the dominant strain of race theory which has been inculcated throughout the culture and in school textbooks that restricted and repressed African Americans and other minorities even as Northerners blamed the South for its legacy of slavery segregation and racial injustice. A major assessment of how we got to where we are today of how white supremacy has suffused every area of American learning from literature and science to religion medicine and law and why this kind of thinking has so insidiously endured for more than three centuries.

Resisting Illegitimate Authority Bruce E. Levine, 2018-09-25 The capacity to comply with abusive authority is humanity's fatal flaw. Fortunately within the human family there are anti-authoritarians people comfortable questioning the legitimacy of authority and challenging and resisting its illegitimate forms. However as *Resisting Illegitimate Authority* reveals authoritarians attempt to marginalize anti-authoritarians who are scorned shunned financially punished psychopathologized criminalized and even assassinated. Profiling a diverse group of U.S. anti-authoritarians including Thomas Paine Ralph Nader Malcolm X and Lenny Bruce in order to glean useful lessons from their lives. *No Badges* is the first self-help manual for anti-authoritarians. Discussing anti-authoritarian approaches to depression

relationships and parenting it provides political spiritual philosophical and psychological tools to help those suffering violence and marginalization in a society whose most ardent cheerleaders for freedom are often its most obedient and docile citizens Resisting Illegitimate Authority is about bigotry but not bigotry directed at race religion gender or sexual preference It is about bigotry directed at rebellious personalities and temperaments US History in 15 Foods Anna Zeide,2023-01-12 From whiskey in the American Revolution to Spam in WWII food reveals a great deal about the society in which it exists Selecting 15 foods that represent key moments in the history of the United States this book takes readers from before European colonization to the present narrating major turning points along the way with food as a guide US History in 15 Foods takes everyday items like wheat bread peanuts and chicken nuggets and shows the part they played in the making of America What did the British colonists think about the corn they observed Indigenous people growing How are oranges connected to Roosevelt s New Deal And what can green bean casserole tell us about gender roles in the mid 20th century Weaving food into colonialism globalization racism economic depression environmental change and more Anna Zeide shows how America has evolved through the food it eats Writings on American History ,1917
