Management Accounting Chandana Alawattage, Danture Wickramasinghe, 2018-08-30 The theory and practice of
management accounting should be seen within the context of varieties of global capitalism to appreciate its role as a
calculative technology of capitalism which is practiced on factory floors corporate boards computer networks spreadsheets
and so forth This new textbook is the first to introduce the field from a rounded social science perspective Strategizing
Management Accounting offers a theoretical discussion on management accounting s strategic orientation by
accommodating two interrelated lines of analyses from historical and contemporary perspectives The book illustrates how
new management accounting has evolved into the form in which it exists today in its neoliberal context and how those new
management accounting practices have become manifestos for the managers as calculative technologies of decision making
performance management control corporate governance as well as global governance and development within various forms
of organizations across the globe Each chapter draws on Foucauldian analysis of biopolitics explaining how neoliberal market
logic informs a set of strategies and mechanisms through which various social entities and discourses are made governable

by considering them as biopolitical entities of global governance Written by two recognized accounting experts this book is vital reading for all students of management accounting and will also be a useful supplementary resource for those wanting to understand and research accounting s vital role in contemporary society
