Food Justice in US and Global Contexts Ian Werkheiser,Zachary Piso,2017-07-01 This book offers fresh perspectives on issues of food justice The chapters emerged from a series of annual workshops on food justice held at Michigan State University between 2013 and 2015 which brought together a wide variety of interested people to learn from and work with each other Food justice can be studied from such diverse perspectives as philosophy anthropology economics gender and sexuality studies geography history literary criticism philosophy and sociology as well as the human dimensions of agricultural and environmental sciences As such interdisciplinary workshops are a much needed vehicle to improve our understanding of the subject which is at the center of a vibrant and growing discourse not only among academics from a wide range of disciplines but also among policy makers and community activists The book includes their perspectives offering a wide range of approaches to and conceptions of food justice in a variety of contexts This invaluable work requires readers

to cross boundaries and be open to new ideas based on different assumptions

Property and Human Rights in a Global

Context Ting Xu, Jean Allain, 2016-03-24 Property as a human rights concern is manifested through its incorporation in international instruments and as a subject of the law through property related cases considered by international human rights organs Yet for the most part the relationship between property and human rights has been discussed in rather superficial terms lacking a clear substantive connection or common language That said the currents of globalisation have witnessed a new era of interrelation between these two areas of the law including the emergence of international intellectual property law and the recognition of indigenous claims which in fundamental ways speak to an engagement with human rights law This collection starts the conversation between human rights lawyers and property lawyers and explores analytical approaches to the increasing relationship between property and human rights in a global context The chapters engage with key theoretical and policy debates and range across three main themes The re evaluation of the public private divide in the law the tensions between the market and social justice in development and the balance between the rights of individuals and those of communities The chapters adopt a global comparative perspective and engage in case studies from countries including India Philippines Brazil the United States the United Kingdom and includes various regions of Africa and Europe

Spatial Grasp as a Model for Space-based Control and Management Systems Peter Simon Sapaty, 2022-06-23 Governmental agencies and private companies of different countries are actively moving into space around Earth with the aim to provide smart communication and industry security and defense solutions This often involves massive launches of small cheap satellites in low earth orbits which is also contributing to the growth of space debris The book offers a high level holistic system philosophy model and technology that can effectively organize distributed space based systems starting with their planning creation and growth The Spatial Grasp Technology described in the book based on parallel navigation and pattern matching of distributed environments with high level recursive mobile code can effectively provide any networking protocols and important system applications by integrating and tasking available terrestrial and celestial equipment This book contains practical examples of technology based solutions for tracing hypersonic gliders continuing observation of certain objects and infrastructures on Earth from space space based command and control of large distributed systems as well as collective removal of increasing amounts of space junk Earlier versions of this technology were prototyped and used in different countries with the current version capable of being quickly implemented in traditional industrial or even university environments This book is oriented toward system scientists application programmers industry managers and university students interested in advanced MSc and PhD projects related to space conquest and distributed system management Dr Peter Simon Sapaty Chief Research Scientist Ukrainian Academy of Sciences has worked with networked systems for five decades Outside of Ukraine he has worked in the former Czechoslovakia now Czech Republic and Slovakia Germany the UK Canada and Japan as a group leader Alexander von Humboldt researcher and invited and visiting professor He launched and chaired the Special Interest Group SIG on Mobile Cooperative Technologies in Distributed Interactive Simulation project in the United States and invented a distributed control technology that resulted in a European patent and books with Wiley Springer and Emerald He has published more than 250 papers on distributed systems and has been included in the Marquis Who's Who in the World and Cambridge Outstanding Intellectuals of the 21st Century Peter also works with several international scientific journals

Providing Integrity, Awareness, and Consciousness in Distributed Dynamic Systems Peter Simon Sapaty, 2024-04-15 The ideas of this book originate from the mobile WAVE approach which allowed us more than a half century ago to implement citywide heterogeneous computer networks and solve distributed problems on them well before the internet The invented paradigm evolved into Spatial Grasp Technology and resulted in a European patent and eight books The volumes covered concrete applications in graph and network theory defense and social systems crisis management simulation of global viruses gestalt theory collective robotics space research and related concepts The obtained solutions often exhibited high system qualities like global integrity distributed awareness and even consciousness This current book takes these important characteristics as

primary research objectives together with the theory of patterns covering them all This book is oriented towards system scientists application programmers industry managers defense and security commanders and university students especially those interested in advanced MSc and PhD projects on distributed system management as well as philosophers psychologists and United Nations personnel

The Rise And Fall Of Global Austerity E Ray Canterbury,2014-12-15 Since its onset in late 2007 few expected the Great Recession to be protracted for over half a decade across the world The Rise and Fall of Global Austerity explains the origins and history of austerity severe implications of the idea of it and how the continuation of the Great Recession was a by product of austerity measures Covering austerity policies that are in place in the United States Europe and other countries E Ray Canterbury explains why austerity is detrimental for economies economic policy and the general health of populations around the world He highlights the connection between public debt and austerity policies and shows how the austerity lobby works in the United States to achieve its goals Besides presenting a critique of the rationale for austerity Canterbury also recommends monetary fiscal and incomes policy remedies and stresses why economic growth and full employment are more ideal and pragmatic antidotes to the Great Recession

Cradling the Chrysalis Mary MacCallum Sullivan,Harriett Goldenberg,2018-05-16 This book addresses the ethical and philosophical basis for the teaching learning involved in becoming a psychotherapist How can training prepare prospective psychotherapists counsellors and counselling psychologists for a task whose practitioners cannot even agree as to whether it is an art or a science an impersonal clinical interaction or a profoundly humane even spiritual encounter The authors believe they share with their students a passion about the possibilities inherent in this particular kind of conversation Such a meeting demands a fully personal engagement and a profoundly ethical attitude towards the relationship with the Other it is also potentially an important beginning in repairing the world The book explores the relative importance and emphasis of the structure content and process of psychotherapy training Its thesis is that the teaching learning takes place in the quality of the reciprocal meeting between the teacher and the learner

Integrating Clinical Research into Epidemic Response National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Health Sciences Policy,Board on Global Health,Committee on Clinical Trials During the 2014-2015 Ebola Outbreak,2017-07-26 The 2014 2015 Ebola epidemic in western Africa was the longest and most deadly Ebola epidemic in history resulting in 28 616 cases and 11 310 deaths in Guinea Liberia and Sierra Leone The Ebola virus has been known since 1976 when two separate outbreaks were identified in the Democratic Republic of Congo then Zaire and South Sudan then Sudan However because all Ebola outbreaks prior to that in West Africa in 2014 2015 were relatively isolated and of short duration little was known about how to best manage patients to improve survival and there were no approved therapeutics or vaccines When the World Health Organization declared the 2014 2015 epidemic a public health emergency of international concern in August 2014 several teams began conducting formal clinical trials in the Ebola affected countries during the outbreak Integrating Clinical Research into
